Company Introduction

One of the most reliable company with Quality & integrity offering a wide range of services like Engineering and Technical support in the field of construction, maintenance and materials supply services.

Our Services

- Project Management Services
- Engineering & Construction
- Operation & Maintenance
- Skill Secondment
- Oil, Gas & energy Services
- Electrical, Instrument & Control
- Shutdown & Turnaround
- Mechanical Works

Industries Served

- **Domestic & International** – Engineering, Procurement, Construction, Installation Commissioning Companies
- **Domestic & International** – Energy, Oil & Gas Companies – Operation, Maintenance & Repair Service
- **Domestic & International** – Production Services

Key Differentiators

- ***Safety Excellence***: Unwavering commitment to HSE (Health, Safety, and Environment) standards, ensuring a secure working environment for our teams.
- ***Technical Skilled Expertise***: Specialized knowledge and experienced crafted manpower & technologies, providing innovative solutions & Services to complex challenges.
- ***International Reach***: Capability to execute projects Internationally, leveraging a network of skilled professionals and strategic partnerships.
- ***Sustainability Solutions***: Integrating environmentally responsible practices in construction, minimizing ecological impact.

About our Company

Since its inception, **TECHNOHR** has been recognized for its emphasis on excellence in **quality, service, delivery, value, sustainability teamwork and safety.**

TECHNOHR Trading & Contracting is a ISO 9001:2015 Certified specialized construction project company with craft manpower dedicated to delivering comprehensive solutions tailored for the unique demands of the Energy, Oil and Gas, Engineering, Construction, Operation & Maintenance, Hospitality & Healthcare Industry, With a commitment to safety, precision, and innovation.

TECHNOHR has earned its reputation for consistently delivering results that add value. We strive to be a trusted partner for everyone we serve and are globally recognized for our Professionalism, Reliability, Efficiency, and Quality.

We have been an established and popular company with an excellent track record for the best customer satisfaction. We have never compromised on the quality and the services provided to the clients.

Quality is our Speciality

We believe in "**Client satisfaction through delivery of quality services**" and are committed to providing quality work to our client that meets the project standards.

VISION

To be one of the leading forces, in the field of Technical Support, Construction and Manufacturing with a commitment for excellence. We will achieve this by relying on the safest, most accurate, and most time and cost-effective hi-tech techniques.

MISSION

Our mission is to be a trusted partner in delivering world-class services that enhance operational efficiency, safety, and sustainability.

"We focus on delivering results with efficiency and safety in mind"

“
**QUALITY
IS NOT AN ACT,
IT IS A HABIT.**
”
- ARISTOTLE

OIL, GAS & ENERGY SERVICES

Maintenance, Shutdown & Turnaround

In Oil, Gas & Energy plant or refinery needed well-organised skilled manpower and equipment to do Maintenance, Shutdown & Turnaround. These activities may include preventative care of equipment, general corrective repair of faults, strip-downs, complete replacement and overhaul or maintenance.

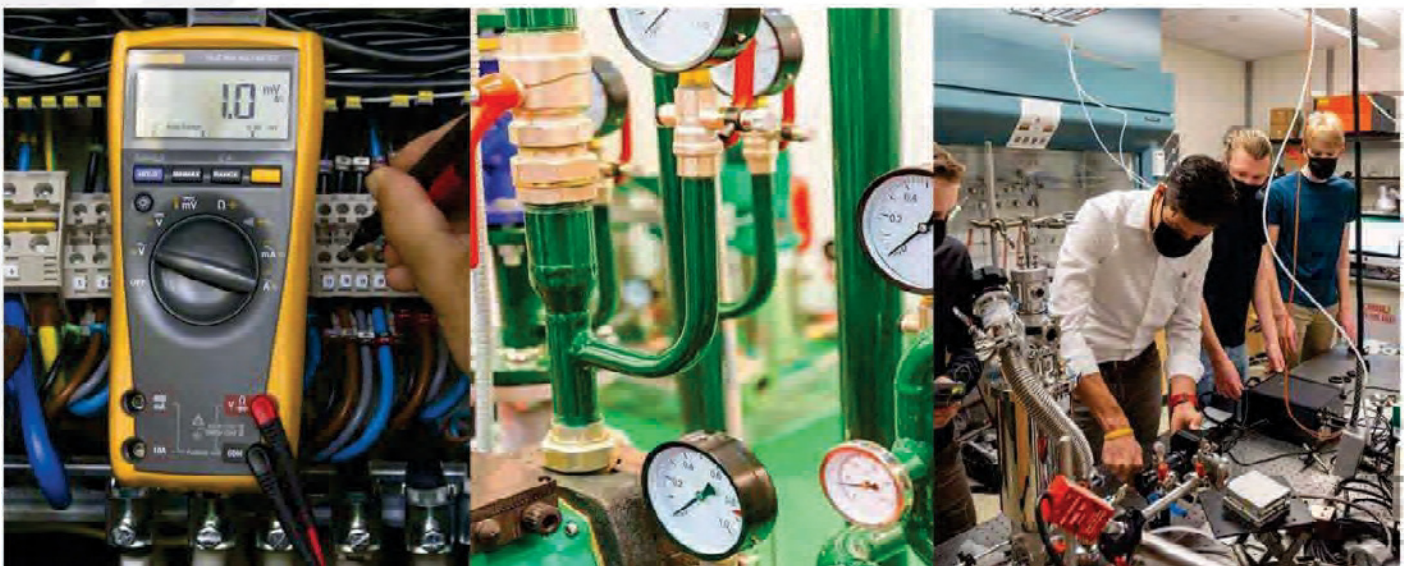

All major oil and gas companies are committed to developing both their scientific and service knowledge, ensuring that shutdowns prioritize what is best from a technical and customer point of view under the specific time frame, budget, HSE Practice, Logistic & Evaluation. **Technohr's** services contribute to the overall operational excellence of oil and gas facilities by ensuring the highly skilled experienced Team to helps an organization meet their objective, manage and control work scope and meet budget and schedule constraints.

Instrumentation & Control

We have been providing quality instrumentation services for industries across Doha-Qatar. As a full-service **TECHNOHR** also incorporates an instrumentation group to complement the work of our general electrical distribution and control teams. Through the synergies of these groups, we can coordinate and support the comprehensive instrumentation needs for projects of any scale and in any industry.

We help our customers enhance their operational performance through increased productivity, reduced cost, and heightened safety. Comprehensive instrumentation and control services answer the need for increased, real-time monitoring of assets, delivering the data and insight required for effective planning and decision-making.

Mechanical Works

We are one of the leading Mechanical service providers with a range of facilities under one roof. These services are executed in a prompt manner by our experienced professionals who possess year of experience in their concerned field.

To maintain promptness, flexibility and timely execution, we provide these services by making use of latest technology in accordance with international standards. Our efficient pool of industrial mechanical maintenance engineers and technicians are always ready to help you at anytime.

Precision
engineering
for a better
world."

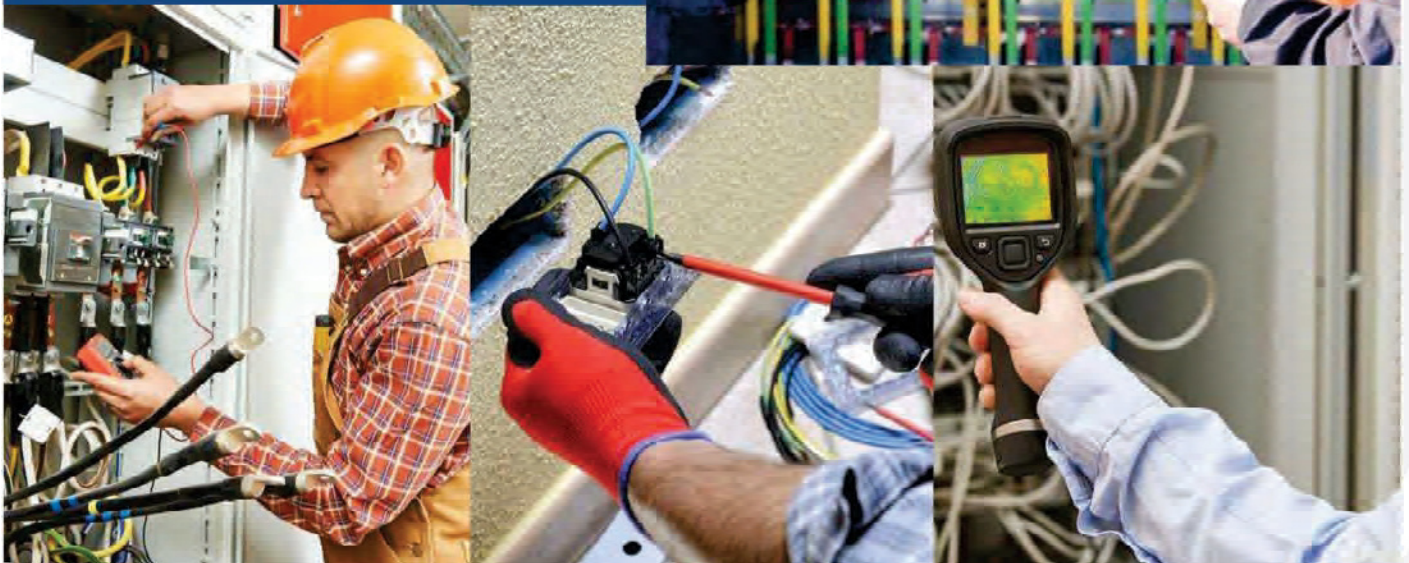

Electrical Works

Electric works in construction mainly included Electrical Power and Lighting works. With a team of experienced electricians, we work efficiently and thoroughly to deliver competitive electrical quotes with top-notch quality work. Our Electrical division has significant experience in delivering complete electrical and automation projects to major operators onshore and offshore.

We have successfully delivered numerous projects all over the Kingdom for both the private sector and the government such as airports, hotels, hospitals & clinics, religious buildings, heritage sites, universities and governmental buildings. With a very strong team of experienced engineers and technicians, we offer professional expertise in the first, second and third x installations, testing and commissioning services and maintenance of electrical systems of various voltage levels.

- Conduits & Fittings
- Raceways & Boxes
- Cables & Wires
- Cable Management System
- Cables Connection & Installation Products
- Marking & Identification Systems
- Earthing & Lightning Protection
- Testers, Meters & Tools
- Enclosed Switches & Circuit Breakers
- Enclosures
- Lighting Fixtures

One Stop
Solution
for all your
Electrical Works

Plant & Camp Maintenance

As part of a Non-Process Infrastructure Works contract, we have successfully delivered various plant and camp maintenance work in the region. This work included the supply of all labour, plant, equipment, materials and other resources required to improve the camp-style accommodation.

With a strong team of in-house labour, we were able to service the contract using predominantly our own trades, including carpentry, cabinet making, security, plumbing, electrical, demolition, asbestos removal, operators and site labour. Our service provides management, cleaning & maintenance services to remote mining and construction camps.

A new place for
Better Innovation

Civil Construction

Excellence in
Every Experience

We understand the unique requirements of civil construction and have established business practices and processes to ensure professional management of projects of any size. We believe that the construction industry would benefit from a more open and collaborative approach and we've become a leader in construction delivery by adhering to that founding principle.

We see ourselves as more than just construction experts. We are our clients' partner in the truest sense, and as a result, our role is to never stop looking for ways to be smarter, leaner and more affordable and deliver faster.

- Surveying

Skill Secondment Services

We are having highly professional staff and skilled workers for our various projects. Our professional HR Team always follow the recruitment process as per Industry best norms and hire the employee after their personal interview and professional skill test.

On the demand from client we provide secondment services to support our clients. This help them to complete their projects on time with the support of our highly skilled workforce. This helps in saving time, energy & our reputation.

Engineers & Inspectors

- > Engineers- Civil /Project
- > Engineers- MEP / Autocad
- > Engineers- Mech / NDT
- > Piping / Welding Engineer
- > Safety Engineer
- > Instrument Engineer (E&I)
- > QA/QC Civil Inspector
- > QA/QC Mechanical Inspector
- > QA/QC Electrical Inspector
- > QA/QC Piping Inspector
- > QA/QC Instrumentation Inspector
- > QA/QC Welding Inspector

Skilled Workers Trades

- > Welders - TIG / MIG / ARC / Alloy
- > Fabricators - Pipe / Structure
- > ARC Welder - (6G / 4G / 3G)
- > Fitter - Pipe / Structure
- > Steel Erector / Riggers
- > Millwright Fitter
- > Mechanical Technician
- > Scaffolder Certified
- > Instrument Technician / Fitter
- > Electrician Industrial
- > Building Electrician / Plumber
- > Mechanic Diesel
- > CNC Operator
- > Mason / Carpenter / Steel Fixer
- > Mechanic Heavy Equipment
- > Heavy Equipment Operator
- > Electrical Foreman / Supervisor
- > Instrumentation Supervisor
- > Instrumentation Foreman
- > Welding Foreman / Supervisor
- > Piping Foreman / Supervisor
- > Mechanical Foreman / Supervisor

“**Projects**
we have completed
demonstrate
what we
know
- future project
decide what
we will learn.”
