

## WINDWOOD WINDSOCK VOLUME 1

# WELCOME

The Windsock Newsletter has been developed as a communication resource for our community to spread the news and happenings in our neighborhood. Also available to our members is the new Private Blog Site at [windwood.freeforums.net](http://windwood.freeforums.net) where documents and threads pertaining to Windwood topics are downloadable and members can post comments. We encourage all members to register for the blog site and participate.

## RUNWAY NEWS

Updates, resurfacing, painting and lights!

# RUNWAY

## Improvements

Since his arrival in Windwood, Mr. John Dehn has been giving of his time and resources to better our community. Last summer Mr. Dehn contributed the money, time and the equipment to resurface our runway and have it repainted, as well as replacing the windsocks and poles. Not only did this make for a safer situation for our pilots, but also gave the opportunity to make the much needed change on the displaced threshold. John didn't stop there, he has continued to give of his time and talents by repairing our lights on the runway which had been inoperable for some time and make repairs to the wiring. Thank you from the bottom of our hearts and thank you for your most generous contributions. Our runway is a critical part of our community and YOU, Mr. Dehn, made all of this possible!

John also volunteered and was voted in as a Board Member for Windwood UOA. His input is invaluable and his expertise makes a huge difference. If you see John out and about, stop and give him a personal "Thank You"! John will be receiving a token of our appreciation at the Windwood Annual Meeting, please mark your calendars.

Don't  
learn  
safety by  
accident.

# Road Around the Runway

## Windwood Member Contributors make it happen

The construction of the road around the runway is underway and while it has some finishing to be completed and Beechcraft to be addressed, progress made has been HUGE. A very special and BIG THANK YOU to Dave Freshwater and John Dehn who contributed the majority of the monetary means, equipment, time and manpower to make this much needed safety change to our community. Too many near-hits have occurred with vehicles and aircraft at the main intersection and this project is indeed a life saving and preventative smart direction. Mr. Freshwater spent countless hours monitoring the progress, working the heavy equipment and managing the men, trucks and endless gravel to accomplish a beautiful result. Other members of our community also donated money to aid in this endeavor. Mr. David Freshwater and Mr. John Dehn will be receiving special recognition and gestures of appreciation at the Windwood Annual Meeting, please plan to attend.

# POOL OPENS!

Community members came together and prepared our pool for a summer of FUN! Giagantic THANK YOU to Doug Hockom for bringing our picnic tables back to life and making them safe for our visitors. Doug worked tirelessly on sanding, staining and shoring up our tables for the pool area. The solar blanket has been doing its job and the pool is warming up despite the cold nights. The blanket will be placed on the pool at the end of each day to attempt to sustain the warmth in the pool through the night. If you happen to be the last people in the pool for the evening, please help us out and place the blanket in the pool BUBBLES DOWN. With attention being paid to COVID guidelines, there will be no trash receptacle in the pool area again this year, please take your trash with you. As a reminder, the pool is open to members in good standing and their guests. No children under the age of 14 can be in the pool without supervision and no pets in the pool or pool area. The pool deck is undergoing some patchwork and grouting, thank you for not sticking your fingers in it LOL!

If you have questions or comments about the pool, or if you encounter a problem, please contact Lydia Hambrick at (740)236-0386.

## EXTERIOR APPEARANCE FOR PROPERTIES

Summer is here and it's a great time to look at the appearance of the exterior of your home to see if it needs a little attention. Unless you are restaining the same color, please contact our Building Control Committee chairperson, Carl Bowlen, at [carl.bowlen@gmail.com](mailto:carl.bowlen@gmail.com) to get the building modification form.

## GET INVOLVED...

Members are needed for the following committees, please consider volunteering:

Building Control Committee (2 members needed)

Road Committee (3 members needed)

Pool/Recreation Committee (1 member needed)

## REMINDERS...

- Please do not walk on the runway.
- STOP at the STOP signs and look both ways including in the air for approaching aircraft.
- Pilots – Turn on the flashing lights and runway lights for takeoff and landings.
- The speed limit in our community is 15 MPH.
- Tuesday is Trash Day for Sunrise Sanitation.
