

CompTIA Pro

The Greater Wheeling Chapter of AITP

This Month's Meeting

October 13th, 2021

This month we will be having an **In Person** Meeting with our **Virtual Option**.

Louis Yurkovitch

Operations Analyst Kroger Retired

Louis career with Kroger has spanned over 45 years starting as a clerk with the last 27+ years as the Operations Analyst.

He received his Bachelor of Science (BS) in Math & Chemistry from Wheeling Jesuit University in 1975. Later he returned to WJU for his Masters of Business Administration which he achieved in 1992. He then served as an Adjunct Professor at Wheeling Jesuit University from September of 1994 through May of 2002.

One of his passions is Genealogy. He has a long standing association with both the Wheeling Area Genealogical Society

Louis Yurkovitch

“3D Printing at Home”

What are the different types of 3 Dimensional Printers and how they differ when you decide to add 3D printing to your computer at home.

If you've ever been a fan of the mantra “the future is now,” now is an opportune time to use it. Technology is at the peak of where it ever has been. Innovation in industry is taking into consideration how many people want better technology. Just look at how many people want to turn their homes into smart ones. One of those types of technologies that used to be thought of as futuristic that is now easier to use is a 3D printer.

When it comes to 3D printers — once thought to be a technology reserved for the rich and elite — owning one is now actually quite commonplace. Like any modern technology, the 3D printer has evolved. There are now many models that are affordable and can fit easily on your desk at home.

(WAGS) where he has served as President and with the Cumberland Trail Genealogical Society (CTGS) in the St Clairsville Library where he currently serves as President.

He is a life long resident of Martins

Our November 10th Meeting

**The Topic is LiFi,
also known as Light Fidelity.**

**Our speaker is
William T. Butler, Ph.D.**

**American Military University
American Public University**

- LiFi (Light Fidelity)
- Is an emerging dual use technology for data transfer at fast data speeds that uses optical transmissions
- Has a lot of capabilities where WiFi is limited due to WiFi's use of the radio frequencies
- Can be used to complement or Replace WiFi
- Has an extremely open market even though it has distance transfer limitations
- Changes the Landscape for the Internet of Things
- Provides Stealth capabilities

Membership Forms & Invoices

As your yearly membership with The Greater Wheeling Chapter of AITP expires and your dues for the next year is due you receive an email from me (Joe) with an Invoice to continue your membership. I will also ask you to fill out a renewal Membership Form to make sure that we have the most correct and current information for you.

Please fill them out as soon as possible. It takes a lot of time to keep track of everything and it will help if I don't have to keep checking with everyone.

If you have any questions, let me know. If you are not planning on renewing let me know that too and I will stop checking.

The Employment Opportunities Section of Our Newsletter

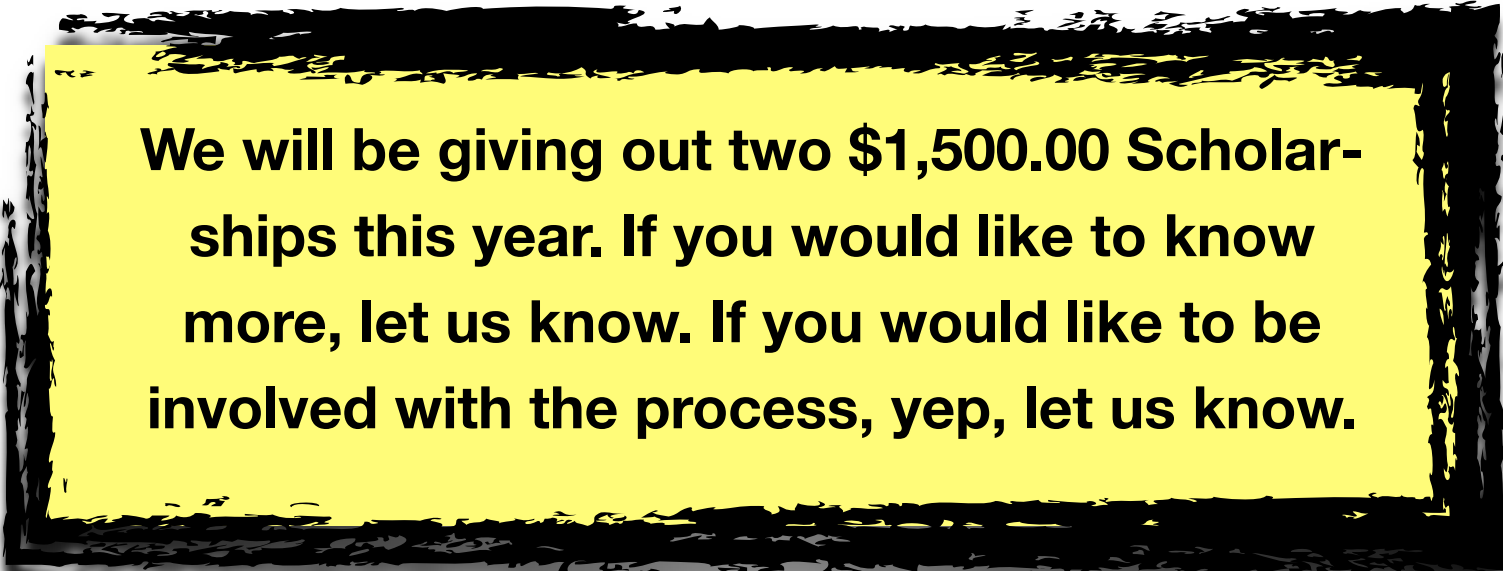

This section of our newsletter seems to be a popular page to visit.
There are several new ones this month.

If your company is looking to hire and would like to post that offering in our newsletter just send the pertinent information to us at AITP.GWC@gmail.com and we will post it as long as you need.

If you have any questions please let us know and we will try to help any way we can.

Our newsletter goes out to over 200 people.

Keep checking the newsletter every month for updates and additions.

We will be giving out two \$1,500.00 Scholarships this year. If you would like to know more, let us know. If you would like to be involved with the process, yep, let us know.

Check out our website at AITP-Wheeling.com
