### **“Collaboration Tools and Privacy/ Security Consideration”**

Security and privacy has become a bigger focus for companies of all sizes over the last several years, and more so now with the SEC taking steps to enforce new and stricter rules for publicly traded companies. One area that is overlooked often though, is collaboration tools and the data that they process and store.

In more recent roles, he has shifted his focus to cybersecurity and privacy issues, building governance/risk/compliance programs from the ground up. It will be held at the El Tor Grotto building at the base of the hill going up to Oglebay Park,
