RSVP

including virtualization and Network Design and Implementation, Facilities Management, Project Management, and Business Process Re-engineering. He has managed various application development and virtualization projects, which has allowed him to develop unique service offerings around project preparation, migration planning and technology strategies.

engineering. He has managed various application development and virtualization projects, which has allowed him to develop unique service offerings around project preparation, migration planning and technology strategies.

Since joining synergIT, Bob has project managed many of the largest projects in company history to date and served as the Project Manager/lead engineer for a Washington County Public Safety / 911 Technology Refresh project. These projects were extremely visible at the County, State and National level and required Bob to coordinate and merge numerous technology offerings into a single, reliable solution for the client all the while working with multiple departments toward a common objective.

Additionally, Bob also manages all of synergIT's SharePoint design/migrations as well as client Azure deployments. Bob's expertise comes by gaining an understanding of the client's current Microsoft architecture and then designing specific migration paths for not only SharePoint online, but a complete Azure – AD implementation. Furthermore, Bob and his team have the means to provide ongoing Microsoft SharePoint and Azure support beyond the final project. Finally, Bob and his team have extensive experiences in designing and implementing electronic commerce systems, enterprise storage systems with the highest levels of security, large clustered SQL databases, virtualization and overall corporate design and assessment projects.

Bob comes to synergIT from a national systems integrator where he held various positions including Infrastructure Technology Architect, Enterprise Infrastructure Practice Manager. Additionally, Bob worked for several New England-based firms including Liberty Mutual Insurance Group, Alpine Computer Systems and Corporate Software and Technology.

Bob is a 1995 graduate of The Pennsylvania State University.

Be sure to **RSVP** as soon as you can, Use the link on the bottom of this page to the **<<** Left.

Special Notices

Please take a moment to read

April 12th's Meeting will be held in the Meeting Room of **Eat'N Park at the Highlands .**

As usual we will be having our **Networking Time** from **5:30 till about 6:15** with **Dinner** being served at **6:15 until 7:00**.

At **7:00** we will begin our **Presentation and Meeting**.

As we did at last month's meeting everyone will be ordering their meals from the **Restaurant's** menu and will be paying their own dinner charges.

There will be a Virtual Option for this Meeting

Marilyn **will** have our **50/50 Raffle** this month but since we have not yet acquired something for our **Progressive Raffle**, we **will not** have that at this meeting.

Be sure to RSVP

Surveys

You may have noticed the **Surveys link** on page 2 above. One is for our **members** to let us know how your leadership is doing and the other is for **anyone attending a meeting** to let us know their thoughts about how they rated the meeting. We hope that you find both to be useful and will take a moment or two to let us know how we are doing.

IMA Awards

All members should have received my email with the information and link for our **Awards Program.** We like to acknowledge the work that our members do to make the chapter run smoothly and for their community involvement. Please take a few minutes to check this out. If you didn't get it let us know at **AITP.GWC@gmail.com** and we will send you another one.
