# The Greater Wheeling Chapter AITP

---

**September 14th, 2022**

This month we will be having an **Regular Meeting with a Virtual Component**

**Louis Yurkovitch**  
Retired from Kroger

## **Genealogy in the Digital Age**

*What is genealogy?*

*Why do people study it?*

*How has technology in the digital age transformed it?*

These questions and others will be answered in a discussion of genealogy and the use of current technology in its use. Researching family history involves investigating and compiling a lot of data. How we do that and keep track of the data is very different in today's world.

From using online databases to identify and collect information to using database type programs to aggregate the data and print family histories, genealogy has changed from your grandparents time when searching through the family bible and visiting cemeteries were commonplace.

Now many people use the internet and various databases to collect information. Then they use a computer program to maintain the records and make them searchable. This talk will discuss those methods.

**Louis Yurkovitch**

Louis retired from the Kroger Company after forty-five years of service. Most of his time was spent in the technology department of the grocery chain.

He was responsible for installing technology, training store personnel in its use, and developing methods for its use.

In his spare time, Louis enjoys many hobbies including Model Railroading, Amateur Radio, and of course – Genealogy.

He has been a member of the Wheeling Area Genealogical Society for many years and is a former president as well as a current board member of the organization.

He taught many local classes in genealogy in that role

He has been a member of The Greater Wheeling Chapter of AITP since October of 2020 and attended many meetings prior to joining. He is currently Secretary for the chapter.
