

## Work Eulogy

Write your own professional eulogy. Fast forward to the end of your career and imagine what others will say about you. Answer the questions below and share with someone who will read your responses back to you.

What words will be used to describe me as a professional?

What will they say about the work I did?

How will they describe what it was like to work with me?

What is the #1 thing that I want to be remembered for in my career?

**Next Steps:** Now think about where you are today. Will the trajectory that you are on make it happen? What changes are needed? What commitments will you make to yourself to realize the outcome you imagine?

Please think about your legacy because you are writing it every day.

-Gary Vaynerchuck
