

Definition

A competent person is a person having the ability to recognize existing and predictable hazards and having the authority to correct them.

Responsibility

The designated subcontractor competent person is responsible for recognizing and correcting safety risks/hazards. This person has the authority to stop work in a potential safety concern on the jobsite. This Subcontractor Manager and competent person are considered the contacts for AB&R projects.

This form must be completed by each subcontractor’s manager and the subcontractor’s designated competent persons. **Where a subcontractor is responsible for multiple crafts, it will be necessary to maintain additional designated competent persons and forms.** Each subcontractor on the AB&R project must submit this completed form to the AB&R Project Manager before beginning work on the project and must update it any time the designated representative(s) changes.
