

MELECTRONICS

LIGHT SENSORS

CODE: LSN-78

The LSN-78 is a motion detector which can be installed on either a ceiling (6 m maximum distance) or a wall (8 m maximum distance). It can detect at either a range of 120 or 360 .

| | |
|-------------------------|---|
| Detection Range: | 360° |
| Power Source: | 220 - 240V/AC |
| Frequency: | 50/60 Hz |
| Rated Load: | 2x40W (E27) |
| Detection Distance: | Wall: 8 m max (<24° C) |
| Time Delay: | Min 10 sec ± 3 sec Max 8 min ± 2 min |
| Ambient Light: | <3 - 2000 LUX (ajdustable) |
| Installation Height: | 2.2 m - 4 m |
| Detection Motion Speed: | 0.6 - 1.5 m/s |

CE RoHS
