Memorandum of Understanding
Reintegration of Full-Time Faculty on Campus Post Covid-19 College Closure

December 10, 2021

This Memorandum of Understanding (hereinafter "MOU") is entered into by and between the Victor Valley Community College District (hereinafter "District") and the Victor Valley College Faculty Association (hereinafter "Association").

The bargaining representatives of the District and the Association have met in good faith and mutually agreed to the impacts and effects of reintegrating full-time faculty on campus and the resumption of pre-COVID-19 teaching assignments and other full-time faculty contractual obligations connected to the presence of full-time faculty on the main Victor Valley College campus and any satellite or related properties the District is utilizing to instruct students. This MOU supersedes and replaces the MOUs entered on June 2 and October 5, 2021.

The District and the Association have reached the following agreements:

1. In order to ensure the safety of faculty members returning to campus for their assignments, the District acknowledges its statutory obligation to provide a reasonably safe working environment in conformance with COVID-19 guidelines issued by the Centers for Disease Control and Prevention (CDC), California Department of Public Health (CDPH), California Chancellor of Community Colleges Office, the California Department of Industrial Relations Division of Occupational Safety and Health (Cal/OSHA), the San Bernardino County Office of Public Health, as well as other health orders from state and local public health officers. These guidelines may include, but are not limited to, items such as maximum occupancy of classrooms; social distancing requirements for all instructional spaces; screening and testing of all persons coming on campus by District-trained personnel; limits on the number of classes/students allowed on campus and within each building at any given time; limits on hallway and bathroom use; cleaning and disinfecting requirements; ensuring the appropriate open ventilation and air circulation; and the provision of personal protective equipment (PPE) for faculty and students.

COVID-19 health and safety information can be found at:
- Center for Disease Control ("CDC")
- California Department of Public Health ("CDPH")
- California Community College Chancellor’s Office ("CCCCO")
- California Department of Industrial Relations Division of Occupational Safety and Health ("Cal/OSHA")
- San Bernardino County Office of Public Health ("SBCPH")
- Victor Valley Community College Reintegration Plan ("Reintegration Plan")

2. Order of full-time faculty returning to on-campus teaching and other contractual obligations.

The order in which full-time faculty shall be expected to return to on-campus teaching and other contractual obligations shall be consistent with the District’s Reintegration Plan. The District shall determine designation of essential personnel based upon operational and programmatic requirements and implement reintegration processes designed to protect the health of full-time faculty while on campus: classroom, offices,
common areas in accordance with applicable state and local health and safety guidelines.

3. The District encourages voluntary vaccination for full-time faculty.

   a. Faculty are encouraged to be vaccinated outside of the Fall/Spring semesters if practical, such as during Winter or Summer sessions, Winter Break, Spring Break, or equivalent. However, the District recognizes and supports faculty who must be vaccinated during Fall/Spring semesters due to vaccination availability and other unforeseen circumstances.

   b. In the case of hospitalization or extended illness due to extreme vaccination reaction, the District will assist the unit member in identifying accommodations, which may include identification of available leaves as required under the ADA interactive process.

   c. If the extreme reaction occurs during Winter or Summer Session, any classes assigned to that faculty member will be assigned to other full-time faculty members for reassignment as first right of refusal, then to part-time faculty as needed.

   d. Full-time faculty who cannot be vaccinated due to documented health reasons and/or religious objection will be provided an opportunity to participate in interactive reasonable accommodation process pursuant to State and Federal law.

   e. All VVC students, faculty and staff are expected to follow the protocols instituted by the District for a safe re-integration of in-person teaching and learning based upon the District's Reintegration Plan. Faculty who encounter students in their classrooms, office areas and other campus locations who refuse to follow District protocols are authorized to require compliance in accordance with the most current Reintegration Plan (“FAQ”) and may in the appropriate circumstances use the emergency system in their classroom, office areas and other campus locations to notify campus police. Established student discipline procedures shall be followed in the case of disruptive or dangerous students.

4. DE certified full-time faculty (instructional and non-instructional).

Full-time DE-certified faculty who are certified by the end of Fall 2021 may request and receive a reasonable accommodation based on their own serious health condition, or the serious health condition of a member of their immediate family, in accordance with the ADA, FMLA, and other appropriate state and federal law, which may include assignment of DE activities including assignments, teaching loads and additional classes online for Fall 2021 if the following conditions are met:

   a. They are assigned in departments/programs that do not have an on-campus requirement as determined by the District.

   b. For courses that have a separate lecture from lab requirement, DE-certified faculty may, in consultation with the Vice-President of Instruction, complete the lecture portion online, and the lab portion on campus, dependent on the classroom/lab safety guidelines in place.
5. Non-Instructional Faculty

a. Full-time Non-instructional faculty will be supplied with the safety measures outlined in the District’s Reintegration Plan and in section 1 of this MOU upon returning to on-campus work. In addition, the District agrees that:

i. Students will continue to be provided the option of scheduling virtual appointments with Non-Instructional faculty for the duration of the MOU.

ii. The District will evaluate, create and implement solutions and/or technology to limit, count, schedule, and serve the number of people inside library, One-Stop Center, and other workplace areas assigned to Non-Instructional faculty to ensure full-time faculty safety in accordance with applicable state and local health and safety guidelines.

iii. Webcams and microphones for each full-time Non-Instructional faculty’s computer for effective assistance in helping students both remotely and on campus.

v. No full-time Non-instructional faculty will be responsible for cleaning and sanitizing public common spaces, including, but not limited to, common computers and waiting areas. Unit members are responsible for maintaining their working own areas, including common faculty areas and equipment, in a sanitary manner.

b. In addition to the above, full-time Counselors and Librarians shall have access to dual monitors for their workspace that extend to the social distancing guidelines of six feet so students can participate without compromising unit member safety.

All full-time faculty will conduct office hours per existing language in the full-time faculty contract.

a. No full-time faculty will be required to do the following tasks related to COVID-19 protocols:

i. Take students’ temperatures.

ii. Evaluate students’ health conditions by formal observation or any medically-based process.

iii. Determine if a student is healthy to engage in face-to-face classroom activities.

b. Contract tracing and “tracking” of full-time faculty.

i. Full-time faculty will be expected to complete a COVID-19 self-check, as provided in Appendix A of the Reintegration Plan, prior to reporting to work at the beginning of each work day. The time spent completing the self-check (approx. 5 minutes) will be considered part of the unit members regular work day.
ii. Full-time faculty can opt to login by phone or to their District-provided
desktop or laptop when arriving to campus and complete any health-
related questions on that device in lieu of using a District-provided smart
phone.

iii. No full-time faculty will be required to use their own smart phone, laptop
or any other portable device for tracking purposes.

iv. In the event of an emergency or when the internet is down, unit members
may be provided with pre-printed self-check forms at District expense,
which can be submitted to their dean’s office.

8. Contractual Obligations.

a. Full-time faculty who are assigned instructional or non-instructional activities on
campus are expected to complete their professional obligations on campus
according to the expectation under the CBA. In addition to the provisions above,
the following options may be implemented for full-time faculty who are
accommodated under this MOU:

i. Any Participatory Governance and Advisory Committee shall allow for
virtual participation.

ii. The District will not refuse selection or participation in the above
committees for full-time faculty who are not physically on campus for the
duration of this MOU, so long as they can participate virtually.

iii. Department chairs will conduct their normal business virtually if possible,
including department meetings and extra duty days for the duration of the
MOU.

iv. Full-time faculty who wish to serve on full-time faculty hiring committees
may request to be accommodated for the duration of this MOU.

v. All other hiring committees that normally contain full-time faculty
representatives can choose to accommodate full-time faculty virtually at
the discretion of the District.

vi. For unit members who have requested and received a reasonable
accommodation per the ADA /Fair Employment and Housing Act that
results in, no on-campus attendance being required, full-time faculty will
be expected to view the contractually required in-service morning
activities via Zoom or equivalent, including signing in virtually. In the event
local/state/federal law per item 1 of this MOU prohibits attendance in
person, unit members will be required to attend via Zoom or the
equivalent.

vii. All professional development workshops or training opportunities for
faculty that are on-campus or held by on-campus groups shall
accommodate virtual full-time faculty as attendees.
b. Full-time faculty will be required to teach the defined modalities (e.g., face-to-face and hybrid, as recorded in the curriculum) as assigned, once face-to-face instruction resumes. Except in the event of an emergency or as directed by state and local health and safety guidelines, no full-time faculty member will be required to teach on campus more than the defined modalities (e.g., face-to-face and hybrid, as recorded in the curriculum) require, once face-to-face instruction resumes.

i. Face-to-face and hybrid courses will adhere to social distancing in the classroom, with appropriate adjustments as indicated below:

1. No full-time faculty will be assigned double face-to-face or hybrid lectures or other equivalent activities for the same section, as defined by the course outline of record. Full-time faculty will not be required to teach a class section to multiple groups at different times, but may be required to synchronously conduct class remotely.

2. Face-to-face lecture/activity percentage will be based on what is safe for students and faculty, in consultation with area dean.

ii. Utilization of course management system for supplementing on-campus and hybrid classes.

1. Non-DE full-time faculty will be trained in, and encouraged to use, the course management system (currently Canvas) for the submission of papers and other materials that will diminish the spread of germs from student-faculty/faculty-student. Training for non-DE full-time faculty will be conducted by the DE Coordinator and DE Facilitator during Spring 2022.

2. Non-DE full-time faculty will be given an opportunity to be trained in, and encouraged to use, the course management system (currently Canvas) to administer tests, quizzes and other similar assignments when practical and in adherence with department guidelines. Faculty in departments that have outside licensing or other state or federal requirements will adhere to those in administering exams and similar assignments. No seat time in a face-to-face classroom will be taken away for any online testing; all contact hours will be maintained for face-to-face classes. Training for non-DE full-time faculty will be conducted by the DE Coordinator and DE Facilitator during Spring 2022.

3. DE-certified full-time faculty may utilize the course management system (currently Canvas) for all face-to-face classes and assignments, and may attend additional training as needed, to be provided by the DE Coordinator and DE Facilitator. Training will include the appropriate use of the Learning Management System (LMS) for face-to-face classes. No seat time in a face-to-face classroom will be taken away for any online testing; all contact hours will be maintained for face-to-face classes.
9. Full-time Faculty Quarantine Procedure and Remote Instruction:

1. In the event a faculty member who is instructing or assigned in-person or on campus is exposed and required to quarantine or there are transmissions or exposure of staff or students traced directly to the faculty member’s class, all classes or assignments of the faculty member shall be converted to remote as required by health and safety guidelines under the circumstances. Thereafter, in accordance with state and local health and safety COVID-19 protocols, the in-person or on campus classes and assignments shall be resumed.

For classes or assignments that are not able or practical to be conducted remotely (e.g., welding), other alternatives may include arranging for substitutes, scheduling make-up classes, or other alternatives on a case-by-case basis. The parties further recognize that in the event such alternatives are required, the parties will meet and bargain any additional compensation, if appropriate, on a case-by-case basis.

2. Newly hired faculty or faculty who are required to convert to remote instruction or assignments and who have not previously been trained shall be provided training in the course management system (currently Canvas) as provided for in Paragraph 8.b.ii above.

If new course management system technology or protocols are implemented that require additional training, the parties agree to meet to bargain the appropriate compensation.

3. In the event students are exposed or contract COVID-19 and are unable to attend class, the parties agree that faculty shall use their discretion in attempting to provide reasonable accommodations or other solutions (e.g., excused withdrawal, incomplete, etc.).

This Memorandum of Understanding shall be deemed to take effect January 3, 2022, and the term of this agreement shall be until June 11, 2022, or until the emergency orders are lifted, whichever occurs first. If emergency orders are still in place as of June 11, 2022, the District and the Association may mutually agree to extend or re-negotiate the terms of the MOU.

The parties further agree that given the changing circumstances and requirements resulting from the COVID-19 pandemic, if modifications to guidelines or requirements are issued relating and applicable to California community college districts protocols and procedures, the parties will meet to determine what changes, if any, should be made to this MOU.

This MOU is non-precedential and does not establish nor affect any past practice or policy, except as explicitly stated herein. Upon the expiration of this MOU, all terms and conditions of employment shall revert to those set forth in the 2019-2022 CBA.
