

Introductory Biblical Hebrew: Summer Intensive (TMTM 2009)

Dr. Angela Kim Harkins **https://www.angelakimharkins.com**

This course is an intensive introduction to the grammar and syntax of Biblical Hebrew. While no prior knowledge is assumed, students must memorize the consonants and vowels prior to the first class (Hackett, pp. 1-26). Please make a video of yourself reciting the alphabet from memory and reciting the names for all vowels. Also write out the letters of the alphabet (consonants and vowels). Submit your video and your written alphabet on the first day of class. There will be a quiz on the first day of all vocabulary found in lessons 1-6, approximately a dozen short words.

Required textbook: Jo Ann Hackett. *A Basic Introduction to Biblical Hebrew with CD* (2010). ISBN 978-1-59856-028-2.
