

Kindermusik®

Sing. Move. Bond. Grow.

Hello Parents,

We are excited to bring the joy of music-making to the Jackson Children's Academy classrooms! Our classes are based on the award-winning Kindermusik curriculum, which uses music and movement to enhance all areas of learning and development in young children. Each activity has a specific purpose and learning goal, such as language development, fine and gross motor skills, and social-emotional development.

Our lessons will have an intentional mix of new material and repetition with activity extensions each week. A typical lesson will include: a hello song, poem/rhyme, instrument exploration, singing, fingerplay or other hand motions, musical storytime, movement, focused listening exercises and dances. **You will have access to all the music that we use in class, along with e-book versions of all the books from class, via the Kindermusik app. We have provided take-home flyers with information on how to access the music via the free Kindermusik app.**

Exploring music together is a fun way to connect with your child(ren) and boost their early learning and life skills. More connection leads to more cooperation at home, and this is a wonderful way to strengthen your relationship with and learn about your child and their abilities. We encourage you to listen to the music on the app, read out the e-books, and browse the suggested at-home activity ideas.

You can learn more about PB&J Kindermusik, our Kindermusik classes and philosophies by checking out our website pbandjmusic.kindermusik.com, PB&J Music on Facebook or @pbandjmusic3 on Instagram. Be sure to follow @kindermusik_international too!

Kindermusik®

Sing. Move. Bond. Grow.

Your child will experience:

- Instrument exploration
- Read-aloud stories
- Musical imaginary play
- Socialization
- And more!

Empower Your Child With Music

Kindermusik is a **multi-sensory learning experience** that boosts all areas of brain development. Independent research shows participation improves language, literacy, social-emotional, and math skills.

Bring the learning home!

All families receive digital access to music, stories, activities, and more, so you can make musical memories together after class.

With just 30 minutes of Kindermusik per week, studies show...

SOCIAL-EMOTIONAL

80%

demonstrated a **NEW** ability to **take turns**

76%

who could not previously demonstrate **self-control** began to show it

LANGUAGE

32%

more **literacy gain** on PALS standardized test

COGNITIVE

2-3x

as likely to show **significant improvement** in Bead Memory

MATH

Jumpstart your child's development with Kindermusik!
