## LEARNING FOCUS

February consists of assessment and instruction. In PreK, you student will receive two report cards. The first comes in February, coupled with conferences. Students will be reassessed in May in order to provide the most current data as your child exits our school. This month, Mrs. Monaco will be conducting one-on-one assessments with your child in order to gather data for report cards and to inform instruction throughout the spring months.

We will continue to work on lowercase letter formation.
