Happy Thanksgiving

Many families travel over the holidays. This month we will be talking about transportation, and the ways we get from here to there. We will also be talking about the ways we are thankful and how our families celebrate.

Foundations

We will be continuing our Foundations Reading and Writing Program by learning letters Qq-Ww. Each week we will introduce a new letter on Monday and Wednesday. Ask your child, "What was the letter of the day?" Most children attending Jackson Schools know all uppercase and most lowercase letters when entering kindergarten.

A Note About Weather...

As the weather grows colder, please remember that we go outside for 10-15 minutes every day. The exception is when it is actively raining or the weather app "feels like" temperature is 20 degrees or less. The children get so excited to play together in the snow! They love to make snowballs to throw at the side of the church and watch them stick.

After School Activities

If you are planning on sending your child to kindergarten next school year, I encourage you to take advantage of afterschool activities and consider sending your child on Fridays. What I hear time and again from parents is what a challenge it is to transition from half day to full day. Full week attendance and extended days help your child to build stamina. If your child is staying after school for any reason, please tell Mrs. Blauner or me so we can help them transition to after school time. Many times children just need to know "what's next". Thanks for your help with this.
