OUR WORK

In response to emerging issues, BHN consistently develops and launches new, innovative opportunities to strengthen the system of care, such as:

- Hospital to community transitions
- Access to needed care
- Critical intervention points
- Health equity and vulnerable populations
- Community mobilization to reduce stigma
- Recovery-oriented services
- Social determinants impacting behavioral health
- Peer and natural supports
- Data-driven planning and coordination

THE NEED CONTINUES

Our partnerships make a difference for vulnerable populations.

OUR APPROACH

When organizations collaborate, better community outcomes prevail, including:

- Greater efficacy & effectiveness
- Improved health and well-being
- Enhanced efficiency & lower costs

FOLLOW BHN

Together, we create a better system of care for those impacted by mental health and substance use concerns.
WHO WE ARE

As a collaborative effort, Behavioral Health Network of Greater St. Louis (BHN) develops initiatives in behavioral health across the lifespan and need continuum which:

- Serve the Eastern Region of Missouri
- Emphasize the uninsured and underinsured
- Create a coordinated and accessible system of care

MISSION AND VISION

Mission

To improve our community by leading behavioral health planning and coordination, through shared responsibility, accountability, transparency, inclusiveness, mutual respect, and racial equity.

Vision

Through the development of a coordinated, accessible, effective and accountable system of behavioral health and support services, the people in our region will reach their highest potential.

OUR IMPACT

BHN gathers data and outcome measures to evaluate the impact for every collaborative effort. Through engagement with regional stakeholders, our impact generates:

- Reduced costs and increased efficiency
- Expanded access, availability, and capacity
- Coordination across providers
- Strengthened delivery of care
- Enhanced consumer quality of life
- Regional alignment

OUR ROLE

- Lead collaborations across care sectors
- Identify Critical Gaps in the service delivery system and pursue solutions
- Increase Efficiencies in the health care system
- Facilitate training, data collection and measurement of results
