By the end of this course, student should be able to:

1. Form questions.
2. Use different verb forms.
3. Put longer sentences together.
4. Link sentences together.
5. Add basic descriptive language onto *simple* sentences that are as grammatically correct as possible.

END OF BEGINNER LEVEL

Lesson Structure

Lesson Length: 1 hour

1. Homework feedback (15 mins approx.)
2. **Speaking** (new target language) (20 mins approx.)
3. **Listening** (new target language) (20 mins approx.)
4. Homework explanation – **reading** and **writing** exercise (5 mins approx.)

Note:

- The above structure is a general guide but if a student needs more time to practice a specific skill, then the structure can be flexible.
- At this level, the aim of each lesson level is that the student can at least recognise the new target language and if possible, use each skill: speaking, reading etc.
- As a student makes progress, such as moving up a level, then the time spent on each skill will increase. This means that lessons may focus more on a specific skill, such as reading, rather than all the skills.
