

COMMITTEES

AGC of NH committees are the foundation for the Association's policies and activities. If you've been looking for a way to get involved, this is your opportunity! Sign up for a committee today and start making a difference!

Please check off the boxes below to indicate which committees you are interested in and complete the form below.

The **Building Committee** is comprised mainly of the Association's building GC members, as well as industry affiliates and subcontractors. Their focus is on legislation that will affect vertical construction in NH including, but not limited to, building code revisions, energy efficiency, public works requirements, construction methods, and contract documents. They also meet with agency leaders and potential owners on current issues.

The **Environment Committee** works on environmental laws, rules, and regulations that affect the commercial construction industry. It is a mix of highway contractors, aggregate suppliers, environmental consultants, and legal consultants. In addition to working on legislation, they also work closely with DES on rule changes.

The **Legislative Committee** is the first stop in the Association's legislative process. Committee members review all bills that may have an impact on the construction industry, and recommend the appropriate action for AGC to take.

The **Highway Committee** was formed in 2012 in response to the growing highway issues such as funding, construction methods, new technology and more. Highway general contractors and subcontractors participate on this committee.

The **Highway Specification Committee** works directly with the New Hampshire Department of Transportation to review specification changes. Highway general contractors and suppliers participate on this committee.

The **Asphalt and Concrete Committees** (QC-QA) work in partnership between AGC of NH and the Department of Transportation. The committee reviews asphalt paving and concrete quality assurance specifications.

The **Safety Committee** continually searches for new ways to enhance safety in the work place. Through a variety of roundtable discussions and forums, the group will be dedicated to monitoring local, state and federal legislation and regulations.

The **Human Resources Committee** focuses on issues such as workers' compensation, health insurance, employer/employee rights, and more are becoming a more important part of any business. This committee works on legislation that will affect the employee/employer relationship of a business. Several of the Association's GC members, suppliers, and industry affiliates have representation on this committee.
