

AGC of NH offers members several publications to keep you informed and up-to-date on industry happenings, the latest trends and more. The following is a brief list of publications:

CONSTRUCTION CONNECTIONS

The official publication of the AGC of NH! Member companies can receive a digital subscription of our bi-weekly newsletter. It is a great way to keep your key employees up-to-date with what's going on at the Association, and within the industry. Association actions, legislative updates, event announcements and more are all a part of this publication.

PLANS ROOM & LOW BIDS NEWSLETTER

This bi-weekly newsletter is a digital information source that tells members what projects are happening in and around NH. The newsletter lists what is currently in the Association's Plans Room, projects for bid, and low-bid results. It is the perfect publication for your estimator, project manager, or more, to receive.

TRAINING GUIDE

This publication includes in-person and virtual education and development opportunities available to members of AGC of NH. Training opportunities include Train the Trainer Flagging, BIM Education, Construction Supervision Fundamentals, Lean Construction, Work Zone Safety, and OSHA 10-Hour.

AGC OF AMERICA MAGAZINE

AGC of NH members can receive a bi-monthly printed copy of AGC of America's flagship publication, Constructor Magazine, delivered straight to your office. Constructor offers in-depth coverage and analysis of the construction industry and related topics.

AGC of NH offers several other publications throughout the year, to include special legislative reports and targeted industry news.
