- ACS IL Lung Screening Tobacco Survey
Thank you for your interest in participating in the 2023 Illinois Lung Cancer Prevention, Awareness, Screening, and Tobacco Cessation Needs Assessment! The survey questions will aim to assess current opinions and practices related to smoking cessation and lung cancer screening in Illinois. The American Cancer Society of Illinois intends to use the results from this assessment to improve outcomes related to

lung cancer and tobacco cessation for all Illinoisans. This survey is being hosted by Washington University School of Medicine in partnership with the American Cancer Society of Illinois. The survey will take approximately 15-20 minutes to complete. The majority of the survey questions are multiple choice. While your responses to this assessment are anonymous, there are several demographic questions that are intended to help the American Cancer Society develop local interventions. While we would appreciate any information you are willing to provide, you are welcome to skip any question you would prefer not to answer or that does not apply to you. Any report or article that is written based on the results of this assessment will not identify you. - Angie Bailey 1/18/2024 9:21 AM • Walk for Hope for Cancer Survivors, Saturday, Oct. 5th in Southern Seven Area - Please contact Rudy Bess for more information - Rudy Bess <coastalt@sbcglobal.net>
- Bart Hagston 1/18/2024 9:21 AM • JCHD continues to administer flu and Covid vaccines, as well as the Arexvy RSV vaccine. We are aware of some general confusion about the three RSV products that have come onto the market over the past 6 months. Arexvy is a vaccine for those age 60 & older with certain medical conditions. Abrysvo is a vaccine for pregnant people given during 32 through 36 weeks gestational age, as well as for persons age 60 and older. Beyfortus is a monoclonal antibody for newborns and babies under 1 year of age born during or entering their first RSV season. Locating these products can sometime be a challenge. At JCHD, we carry Arexvy, we can order Abrysvo on demand, and we Beyfortus is in very limited supply, but we have a small supply through VFC for those eligible who are uninsured. Also, we have free colorectal cancer screening FIT kits for people age 45-75. These at-home kits can be picked up at JCHD and are tested in-house upon return.
- Tamara Caffey-Bey 1/18/2024 9:21 AM • There is some regional training being offered in the upcoming months. Visit www.sparccoalition.com. Hit the Training Resources/Events tab to pull up the calendar of events.
