

## Bluebird

A blue bird  
Flew by my window  
And the people came to see  
From miles around

Later  
I went to find it  
Though I looked for hours  
There was nothing to be found

Blue bird, Blue bird  
Are you going to make my dreams come true?  
Blue bird, blue bird  
Would it help if I believed in you?

Seems like  
People need you  
When there's nothing left  
And everything to lose

It's only  
In believing  
that even beggars get. to choose

Blue bird, Blue bird  
Are you going to make my dreams come true?  
Blue bird, blue bird  
Would it help if I believed in you?

Does it matter if your'e real?  
Could facts and figures  
Ever change the way I feel?

Blue bird, Blue bird  
Are you going to make my dreams come true?  
Blue bird, blue bird  
Would it help if I believed in you?
