

**It's a fine life**

We gets up every morning  
It's a fine life  
Just as the day is dawning  
It's a fine life  
We works to get our shilling  
There's bellies needing filling  
It's a fine , fine, fine, old life

The bills are needing paying  
It's a fine life  
And me hens they have stopped laying  
It's a fine life-50  
We've got no time to stop  
We just work till we drop  
It's a fine old life

The kids are always scraggin'  
It's a fine life  
The wife won't stop her naggin'  
It's a fine life  
But until I meets my maker  
I never will forsake her  
It's a fine life  
It's a fine old life

The fences still need mending  
It's a fine life  
The tater patch needs tending  
It's a fine life  
I'd change things if I could  
But I know I never would  
It's a fine life  
It's a fine old life
