

The travelling life:

David and June Wendon

Concertina players. David and June spend their time touring clubs and sessions all over the UK:

We have to-day returned from another month away in which time we have been in twelve counties from Essex along the south of England to Somerset and been singing our way along, or as our van is named 'Meander' along.

We have been to four folk clubs and four sessions, its my way of fighting dementia but some will say its too late! Surprise is that we have been welcomed every time considering our limited ability.

It's good fun and of course we are meeting like minded people and even asked back probably because they know the distance and that it is not likely to happen!

Then we are going to Suffolk Song and Ale, Sussex SA and The Wail at Verwood with days with the Folk section of the Camping and Caravanning Club and then off to France in September for a couple of months and I have lined up three folk clubs over there. If only we could have started this life style earlier but you can see we are making the most of it now.
