

## ***Ballad of Big Jim***

Big Jim was a one man army  
A one man navy and the airforce too  
The BIG C was the one that got him  
It was more than the war could do.

He told me about his secret weapon  
The one that got him through the war  
'When the going gets tough,  
the tough get going,  
that's what your legs are for.

You put your head down  
and you come out fighting  
a quick one-two and you watch them fall  
then you run away like greasy lightning  
that's what your legs are for'

He could have been a contender,  
He could have taken them all  
The bigger they are just means  
The harder they will fall....

So when the boys are waiting  
Behind the bikeshed after school  
There's no time for hesitating  
The winner takes it all

'You put your head down  
and you come out fighting  
a quick one-two and you watch them fall  
then you run away like greasy lightning  
that's what your legs are for'

You could have been a contender,  
you could have taken them all  
The bigger they are just means  
The harder they will fall....

So when the boss is waiting  
To make you out to be the fool  
No need for hesitating  
Remember the golden rule  
'You put your head down  
and you come out fighting  
a quick one-two and you watch them  
fall  
then you run away like greasy lightning  
that's what your legs are for'

I could have been a contender,  
I could have taken them all  
The bigger they are just means  
The harder they will fall....

The Big C can move like lightning  
It outran Jim despite his skill,  
So Big Jim ran up to heaven  
- I betcha he's running still

He could have been a contender...
