## Back to School:

It is our prayer and hope that your child/ren have an successful school year. Please ensure that we have received your child's school calendar for the year. This helps us with scheduling and knowing when to expect children on school days out. Now that school is back in session, we are **Traditional before and after care and school days out** only. If your child is unable to attend school due to suspension, or closes for a random reason throughout the year, you are responsible for finding alternate care. **Accepting SDO children for emergency school closings will be case by case.** You will be billed for any unexpected changes to your child’s care.

## New License:

TenderCare has finally obtained its new license! This has been a process but now that Capital Drive Lutheran Church is no longer serving the community, TenderCare Inc. had to re-establish with very few changes. Our **New Provider Number is #000591380/001.**

### Open House

October 4, 2023

Come and meet your child's teacher, visit the classroom, and see what the children are learning

### Harvest Fest

**Hair like mine** by: Latasha M. Perry

*Visit your local library and check out a book to read at home with your child each night!*

# What Is Social/Emotional Development?

Children grow and develop rapidly in their **first five years** across the four main areas of development. These areas are motor (physical), communication and language, cognitive, and social and emotional.

**Social and emotional** development means how children start to understand who they are, what they are feeling and what to expect when interacting with others. It is the development of being able to:

- **Form and sustain positive relationships.**
- **Experience, manage and express emotions.**
- **Explore and engage with the environment.**

Positive social and emotional development is important. This development influences a child's self-confidence, empathy, the ability to develop meaningful and lasting friendships and partnerships, and a sense of importance and value to those around him/her. Children's social and emotional development also influences all other areas of development.

Parents and caregivers play the biggest role in social/emotional development because they offer the most consistent relationships for their child. Consistent experiences with family members, teachers and other adults help children learn about relationships and explore emotions in predictable interactions.

To nurture your child's social and emotional development, it is important that you engage in quality interactions like these on a daily basis, depending on the age of your child: Provide your toddler with responsive care, letting them practice new skills while still providing hands-on help.
