

# Nature Hunt

Go outside with your child to your yard, deck, balcony and pick a spot to sit.

Use all your senses to observe and explore the world around you.

Find one or more things that fit in each of the following:

1. Signs of the season
2. Unique rock or plant - What's unique about it?
3. What nature sounds do you hear?
4. Evidence that an animal has been there
5. What animals can you see?
6. What else do you notice?
