

Silly Putty

$\frac{1}{2}$ cup white glue (like Elmer's)

4 - 5 drops Food coloring (too much may stain)

$\frac{1}{2}$ cup liquid laundry starch

Measure glue into bowl. Stir in a few drops of food coloring to desired color.

Pour the starch into the glue and stir. Watch it solidify as you stir!

Play with putty on a tray or waterproof surface (laminated table top).

Add more liquid starch as you play if mixture gets sticky.

Store in airtight baggie.
