

WALTER Seed Inc.

2022
WHEAT PRODUCTS

Dear Friends,

The ag industry is a very challenging yet rewarding one. The seed industry is no different. Walter Seed knows what it is like to invest money and effort into your crop and hope for good weather and in turn a good harvest. Since we farm just like you, we understand what good quality seed means and how important it is to be the base for the future of your operation. We also try to help with making good agronomy decisions. As farmers, we only have so much money and we need to make sure we invest it in the right areas to get a good return. Whether it be seed, herbicides, fertilizers, fungicides, biological products, or equipment, we are here to help. Thank you for taking the time to learn more about us and we would be so pleased if you were to “*grow with us.*”

Wheat Products

21L

Huge yield potential, excellent standability

WINTER HARDINESS	1.5
TEST WEIGHT	1.5
STANDABILITY	1.7
HEAD SCAB	2.0
LEAF RUST	3.5

Maturity Range	Medium-Early
Head Type	Smooth
Plant Height	34 inches

18L

Excellent yields, beautiful straw

WINTER HARDINESS	1.5
TEST WEIGHT	1.7
STANDABILITY	2.0
HEAD SCAB	1.8
LEAF RUST	2.5

Maturity Range	Medium
Head Type	Smooth
Plant Height	36 inches

Scale: 1 = excellent 5 = worst

We proudly treat our wheat with Commence[®] seed treatment, which bring our treatment package to a total of **18 DIFFERENT INGREDIENTS!!!**

Commence®

SEED TREATMENT

FOR WHEAT PLUS

TARGETED SEED TREATMENT

Commence® seed treatment for wheat stimulates microbes in the immediate growing environment of the seed to deliver the nutrients plants need for a strong start. More rapid development leads to a greater root structure and a better stand for healthier plants throughout the growing season.

HOW IT WORKS

Commence® seed treatment utilizes our proprietary encapsulation technology, a natural polymer made up of carbon based polysaccharides, to first feed beneficial bacteria surrounding the seed. Our patented Microbial Catalyst® technology then increases microbial activity and unlocks enzymes, releasing tied-up nutrients in the soil and making them more available to the plant.

INCREASED YIELDS

Field trials from across the country consistently show greater yields from Commence® seed treated wheat.

COMMENCE® ADVANTAGE

- Faster emergence
- Improved plant vigor
- Greater root structure
- Larger biomass
- Fuller heads
- Enhanced drought and stress tolerance
- Compatible with other seed treatment
