CALiTrak™

Safety Equipment
Maintenance
System

Delivering **POSITIVE** changes

Safety Equipment Maintenance is the process of inspecting, cleaning, repairing, and testing safety devices and gear to ensure they remain in optimal working condition.

It encompasses a wide range of equipment, including personal protective gear (PPE) and industrial safety devices.

CALiTrak™ Software

Web-based application designed for and by EHS specialists who care about the industry challenges.

Let's make your life easier!

Safety Equipment Maintenance System is used by Health & Safety departments or any other key player to plan, schedule, track, and analyse maintenance activities for all safety equipment.

CALiTrak™ can be used for any PPE or safety equipment that must be calibrated, inspected and checked on a regular basis.

- ♦ Portable Gas Detectors
- ♦ Fixed Gas Detectors
- ♦ Industrial Hygiene Instruments
- ♦ Environmental Monitoring Instruments
- ♦ Lifting Gears
- ♦ Fall Protection PPE
- ♦ Fire Protection Equipment

EHS instruments sold by IHI LTD or its partners have their data stored in CALiTrak™ and we provide our customers with free logins to access them.

CALiTrak™ is designed for Small to enterprise-sized organisations looking to implement a sustainable, strategic safety equipment maintenance transformation. Among all the benefits it can provide, it helps organizations demonstrate full compliance with **ISO 45001** (section 9.1 Monitoring, Measurement, Analysis and Evaluation).

Features for Driving Equipment Reliability, Reducing Downtime, and Prolonging Optimal Equipment Lifecycle:

1	**Documentation:** Help you find key documents related to your equipment (e.g., user manual, data sheet, certificate of conformity, checklist template, etc.) in one click.
2	**Fleet Management:** Let you allocate equipment to a specific user and/or department. It displays the number of equipment allocated to your organization, department, and user.
3	**Maintenance Scheduling:** Scheduling routine maintenance, services, and checks prompts a preventive approach to equipment maintenance. It gives you on-screen calibration reminder alerts prior to the due date and warning alerts on and after the due date.
4	**Maintenance Tracking:** CALiTrak™ digital Platform allows seeing all in-progress maintenance activities.
5	**Maintenance Records:** CALiTrak™ is used to record asset maintenance activities. It allows you to track maintenance tasks performed (e.g., calibration certificates, maintenance reports, inspection checklists, etc.).
