

Ace of Space Organizing

LET'S DEAL WITH IT

**PRICING GUIDE
& SERVICES**

Welcome

I'm thrilled that you are considering working with me to transform your house into a beautifully organized home.

Spend some time reviewing this guide. If, after reading this, you feel like we'd be a good match, let's setup a time to discuss an organizing plan.

DISCOVER YOUR STYLE

I'll help you and your family discover your personal organizing style and design an organizing system that will work with that style, so you'll never struggle with mess or clutter again.

Step-By-Step Guide for MY SERVICES

Let's transform your house into a
beautifully organized home...that stays that
way for good.

1. Free Phone Consultation

Before we work together, we will discuss over the phone your needs and your vision. I'll help you discover your organizing style, and we'll create a plan for your home.

2. Guided Declutter

On our first day together, we will begin by decluttering your home. I will ensure that this process is as stress-free and painless as possible and YOU will make all the decisions on what stays and what goes.

3. Custom Organizing

Once we have decluttered, I will design and implement an organizing system that works with your natural organizing style. You will have complete control over the design of your space.

Unpacking

Moving to a new place? Not sure how to find a home for all your items in a way works for you and your family?

I will help you unpack and organize your space that functions and meets the needs of your family.

You're a *Cricket*

You're a *Butterfly*

You're a *Ladybug*

What Clutterbug are you?

Organization IS NOT one-size-fits-all.

During our initial FREE consultation, I'll listen to you describe your needs and help you discover your personal organizing style.

Together, we can create a custom organizing design that works with your natural organizing style so that your space will stay neat and organized long term.

A Ladybug craves visual simplicity and macro organization

A Cricket craves visual simplicity and micro organization

A Bee craves visual abundance and micro organization

A Butterfly craves visual abundance and macro organization

About Me

My name is Krista and I have always found great joy in organizing and decluttering. Even as a child I loved to arrange the toy shelves, my closet and my bedroom just so. However, I must also admit that I am a third generation packrat. What's a packrat you say? It's someone who keeps a lot of stuff that is usually not needed. I am able to hoard lots of stuff away in a neat and organized manner. Anyone who has ever helped me move has always been amazed by the amount of things I have, because they never realized how well I maximized my storage space!

I have been a teacher for 17 years. Establishing and maintaining order and systems are vital to keep a classroom running smoothly. I have moved over 10 times and set up 10 different classrooms and 10 different homes. It always excites me to set up a new space and find the best way to make it function at its full potential. Over the years I have helped friends and family with their closets, bedrooms, pantries, sheds, classrooms, kitchens, and even freezers and fridges, because I enjoy it so much. I take great satisfaction in helping someone find delight in a space that they have been struggling to tame.

After teaching through the year of covid I decided it was the perfect time to transition into helping others gain the confidence to manage their space.
