Committees:

Buoys: Some buoys need to be replaced. As seen on the lake, there are fewer swans thanks to volunteers oiling the eggs.

Weed Spraying: Spraying was done for Milfoil, both for common and private areas. After July 4th there is a possibility for a Milfoil grant. Starry Stonewort to be sprayed from the Lake James side under the bridge to about wetlands area. In addition, they will spray down by the spillway. Plans to address Tanglewood area will be determined later.

Jim Miller commented on our Wetlands that is important that we all recognize the need for them to be saved. Wetlands provide filters to purify our lakes, prevent algae bloom and fish kills, and provide control for erosion to trap sediment which helps prevent wash away. These are a few things our wetlands do for our lakes. Please join to educate and protect our natural resources. Jimmerson Lake has more boats per capita than all the lakes in Indiana.

City Council person Ruth Beers noted in the Angola paper that she would like lake owners to contribute to lake patrol. Lake residents have already contributed via boat tax for patrol. Ms. Beers needs to be better informed prior to such a statement.

JLA will provide BBQ chicken at the annual boat show to be held July 31, 2021.
