

Mission Statement

We believe in the proverb that declares:

“Give a man a fish, and you feed him for a day. Teach a man to fish, and you feed him for a lifetime.”

We have students of all ethnicities, gender, and age. The goal is to educate our students to become independent, confident, and accomplished in the field of music. These skills reciprocate into other fields if the student chooses a new direction in life.

In-Studio develops and educates students to fulfill their dreams of making music. Along the way, they start to think different, they are proud of their achievements; their newly developed talents are humbling to them. It's more than the accomplishment of inventing songs and designing sound it's the confidence that is earned by the follow-through to achieve a dream through diligence, dedication, and determination. On graduation days, we have witnessed students whom have wept with tears of joy. When a dream comes true it touches our hearts in a special way.

Our hope is that you can attend the program and receive this life changing experience. We have one of the most affordable Music Production and Technology programs in education to make it obtainable for more students.

See you in-Studio!
