HUNT THREE of the BIG FIVE IN SOUTH AFRICA

[Click for more Photos](#)

Situated in the heart of the Eastern Cape, South Africa, set against a beautiful landscape, the Hunter has an opportunity for classic African Adventure, experiencing the essence of 5 Star African luxury in a Malaria-free Game Reserve. This reserve is home to three of Africa's BIG 5- Lion and Rhino and Buffalo. Its land stretches over an area of 60,000 acres and offers guests the ultimate hunting experience. In this diverse and very private environment the largest variety of Game Species in the world exists to tempt the hunter.

The area abounds with Black and White Rhino, Lion, Buffalo, Sable, Roan, as well as a large variety of all the Plains Game and African Exotics. A Total Number of over 40 Species is offered

There are excellent opportunities of taking at least three of the big five, along with an array of quality plains game, like Giraffe, Zebra, Lechwe, Eland, Kudu, Sable, Roan, Waterbuck, Bontebok, among others. A wide variety of the specialized

African Exotics, which constitutes an exciting and challenging hunt, is also on offer to the hunter.

This is a true hunting experience in the Eastern Cape Karoo region of South Africa, while at the same time affording guests a safe, pampered and educational journey that will never be forgotten. This family-run operation is committed to protecting their natural resources, their future livelihood and all their wildlife to ensure that the future generations will enjoy their precious, sustainable heritage on the land that is loved and protected.

HUNT LION IN SOUTH AFRICA

The African Lion is one of the most feared and respected of all of the Big 5. It is truly the King of the African Savannah and there is no better way to hunt these magnificent beasts than on foot. The "old school way." This outfitter has been hunting free-ranging Lion for over seven years. There are three dedicated Lion reserves, comprising over 25,000 acres, devoted to free range Lion. These exclusive hunts have been very well received by hunting communities and are especially popular with clients who do not want to hunt "canned" Lion. Vast majorities of Hunters have typically hunted West Africa, Tanzania, Zambia, Zimbabwe, Botswana and Mozambique and have either been unsuccessful on Lion or have wanted to add heavier maned Lion to their collection or just to experience lion hunting at its best. All these hunters have found the walk and stalk hunt challenging and truly fair chase

HUNT RHINO IN SOUTH AFRICA

Every hunter that visits Africa, dreams of hunting the Big Five. Thanks to like-minded wildlife enthusiasts and the efforts by sportsman these pre-historic giants can once again be hunted. For many people the cost is a prohibitive. With this outfitter's on-going management plan and carefully managed Rhino population there is a thrilling alternative. The "Rhino dart" this is a legal method of darting and is recognized by both DSC and SCI as part of a big 5 hunt. This is a unique and exciting experience to get up close and personal to one of Africa's most dangerous game. This is one of the few Rhino reserves that have an accredited management and research program in place with the South African Game Department.

Black Rhino

The Ultimate in Sport Hunting! A large population of Black Rhino can be found walking amongst Lion. This is most probably the most dangerous of all hunts and extremely challenging as the Black Rhino is notoriously cantankerous. Hunters are more likely to become the

hunted and not the hunter! It becomes extremely challenging testing the hunter and Professional Hunter's abilities against the Rhino's very acute sense of hearing and smell, coupled with the Rhino's natural aggression when the hunter intends to dart the Rhino instead of using a killing shot. Bagging one of the Black Rhino puts the hunter in the league of the elite hunting fraternity. Very few hunters have acquired this distinction.

White Rhino

The White or "Square lipped" Rhino command respect because of their sheer size. Stalking a prehistoric creature such as the White rhino is always an exciting experience. Their eyesight is better than people give them credit, but it is their nose and ears that are excellent. When in close quarters they are completely unpredictable and are likely to run towards you for closer inspection!

HUNT THE CAPE BUFFALO IN SOUTH AFRICA

The Cape buffalo has earned its respect by many PH's and Hunters across the African continent. Robert Raurk best describes them "He looks at you as if you owe him money". They are unpredictable and probably the most dangerous if cornered or wounded. These Bovine beasts appear docile but when cornered or wounded they can be extremely aggressive and cunning. This is a classic, dangerous game safaris in the old style, with plenty of walking, tracking and scouting

Coastal Hunting

Lush, undulating grassland and Thornveld plateaus are typical Eastern Cape Sweetveld bush for hunting in an area steeped in the history of Anglo-Boer conflicts. Trophies on offer are the shy Blue Duiker and Oribi, the elusive Grysback, the aggressive Bushpig and Bushbuck and the cunning Caracal, only a short distance away in

the natural beauty and biodiversity of pristine bush and lush farmland. You will be welcomed as guests to the picturesque seaside village of Port Alfred, which is in the heart of the Sunshine Coast, between the Eastern Cape coastal cities of Port Elizabeth, East London and inland towards historical Settler Country. The stunning Safari Lodge is a stone's throw from the sea and enjoys access to every modern amenity. Providing gracious accommodation, the Safari Lodge is situated high on the banks of the wide, navigable and tidal Kowie River and nestled amongst the natural Milkwood trees on a ten acre property with private jetty.

Superb beaches, invigorating boat cruises, river and deep sea fishing, golfing along spectacular stretches of the Indian Ocean coastline, resort spa treatment facilities, quad-biking, water-skiing, scuba diving, canoeing, whale and dolphin watching, Horse Safaris through contrasting habitats of dune forest, open grassland and over magnificent beaches and sand dunes, led by qualified guides, visits to nearby private game reserves or walks in unspoiled indigenous forests are all a few of the recreational activities on offer.

Safaris are conducted by fully experienced, licensed Professional Hunters, supported by a compliment of trackers and skimmers, to enjoy an unforgettable hunting safari. Special custom-built Land Cruisers transport clients into the specific hunting area and from there all hunting is done on foot to experience true fair-chase hunting. This is the perfect hunter and family experience. Whether on a private adventure or part of a group of hunters, this outfitter honors you with the warmest hospitality and the wonder of the African Safari.

Please note that your passport needs to be valid for six months beyond your intended length of stay. US citizens visiting South Africa do not need a visa. For international flights, bullets must be packed in a separate lockable case with firearm (not in checked luggage).

Please prices are in US Dollars (\$)
