**HUNT for LORD
 DERBY ELAND,
 BONGO, FOREST
 SITATUNGA,
 BUFFALO, ROAN,
 HIPPO,
 ELEPHANT IN
 CAMEROON**

Situated on Africa’s West coast, **Cameroon** is one of Africa’s most diverse countries. Stretching from the tropical rainforests in the South (at a latitude of 1°N), through the mixed woodlands and savannah’s, into the more arid north and finally up to Lake Chad (at a latitude of 13°N). This diversity in vegetation hosts an incredibly vast array of animal and bird species which range from the elusive Bongo, Forest Sitatunga and Giant Forest Hog, through to the Lord Derby Eland, North Western Buffalo and Roan in the north. Cameroon is surrounded by Gabon and Equatorial Guinea in the South, the Central African Republic and Chad to the East, Nigeria and the Atlantic Ocean to the West. Cameroon is one of the most financially and politically stable countries in central Africa. The two official languages of the Cameroon are English and French, with French being more widely spoken. The local currency is known as the CFA Franc (XAF). This can be calculated at a fixed rate of exchange as 650 CFA to the Euro. The population of Cameroon is estimated to be about 20 million people, in a country slightly larger than the state of California. Access to the country is easy via Europe and South Africa, with several airlines using Douala as one of their main points of entry. Air France offer daily non-stop flights from Paris. This outfitter offers you 65 years in the hunting industry. They have hunted most of the Southern and East African Countries.

SAVANAH HUNT

Hunting is 1 x 1. Each professional hunter has his own vehicle and a team of trackers and porters. All safaris are scheduled with one or a maximum of three hunters per camp.

The bulk of the hunting here is done by tracking on foot, or on a spot and stalk basis. The walking is not very strenuous, but the ground underfoot is not always even. Good walking shoes or boots with ankle support and cushioning are recommended. (*) Anti-poaching and community-development program: in order to support an effective year-round anti-poaching campaign, as well as for advocating the value of wildlife to the villagers adjacent to and within the hunting blocks, a fee of 10% of the above trophy fees will be collected to fund these programs under direct supervision. We have implemented these programs in all hunting areas and have found that the results of direct funding for these necessary actions have been extremely beneficial in the overall quality of the hunting experience offered to clients. These fees are paid at the conclusion of the safari, based on the final trophy fee amounts.

Note: Government fees might be modified (increased)

without prior notice. The outfitter cannot be held responsible for any such modification.
