- ✓ School Consults
- ✓ Public Trainings

Evidence-Based Results

Applied Behavior Analysis (ABA) is an evidence-based approach known for success in treating individuals with Autism Spectrum Disorder & other developmental disabilities.

The evidence-based approaches in ABA Therapy are backed by decades of research showing intensive ABA treatment is the most successful approach for children with Autism.

Children

Improve Cognition,
Language, Social, &
Self-Help Skills

Teens & Adults

Teaches behaviors essential
to functioning at home,
school, & in the community.

Across The Lifespan

ABA can decrease severe problem behaviors that endanger health & safety and that limit educational, residential, or vocational options.
