

KEEPING YOUR PEOPLE CONNECTED, SECURED AND PRODUCTIVE

TECHNOLOGY AND CYBERSECURITY SOLUTIONS FOR YOUR ORGANIZATION

WHO WE ARE

Established in 2002, Verus started as a Philadelphia area based Managed IT, cloud computing organization. We have grown into a national IT and cybersecurity company, servicing the entire U.S.

Our reputation as one of the most dependable IT technology management providers in the industry, is why Verus is continually chosen for our comprehensive management solutions. We are laser focused on customer service and reliability.

OVERVIEW

The team excels at technology consulting, IT Management, cybersecurity, networks, Infrastructure and cloud solutions. Our customers benefit from our experience, integrity and quick response time. Consider Verus another member of your team. We take the time to understand your unique business needs and offering solutions that are right-sized for you. We identify and streamline financial redundancy among your technology vendors and become the single point of contact.
