

Deer Lake Association Newsletter

September 2021

We hope this newsletter finds all the residence of Deer Lake doing well. Hopefully, most of you have made it up to your cabin over the last few months to enjoy the great outdoors. As communicated in the emails, the Board decided on one fish stalking this year due to the low water levels. In addition, chemicals were applied to the lake by volunteers earlier in the summer to minimize algae and weed growth. We are grateful to all the volunteers that have been helping keep the lake clean and the fence maintained. One item that we are seeing is an increase in damage of the fence around the lake by the cow population. The Board has been in contact with the Cattle Inspector and the owner of the cows. We hope to obtain some type of restitution for the damage that has been caused. Further, we are working with Tim Chavez to install the last few culverts that remained from last year's culvert project with the county. In addition, a new website has been stood up this summer for the associations use. Lastly, we were happy to see the association members that came out to the 2021 Labor Day Picnic. We extend our sincere gratitude to Sara Money for hosting the picnic on her property this year!

For those that have not been able to travel up to Deer Lake, this is a current picture of the lake and its water level.

Fence damage around the lake caused by the cows grazing in the area.
