

## **Aquatic Consultants Inc.**

*"Your Lake & Stream Experts"*

October 14, 2019

As part of our normal monthly maintenance, our biologists and technicians visited the water resources at Deer Lakes HOA on the following date(s):

09/28/2019

Your lakes were assessed for aquatic vegetation problems, water quality was monitored, and overall lake condition evaluated. Following are the results of the monitoring and any subsequent treatments or management actions:

### **Trout Pond**

Sept 27 - Dissolved oxygen has greatly increased since our previous visit and allowed for a steady treatment for chara, surface algae, and knotweed. Health of the trout in this pond continues to increase with the supplemental feed.

We will return in October to perform our scheduled lake management and maintenance. If you have any questions or concerns, please contact me at (505) 681-2500. Thank you again for your continued confidence in our company.

Sincerely,

Jake Shandler, Fisheries Biologist  
Aquatic Consultants, Inc.
