

## **Aquatic Consultants Inc.**

*"Your Lake & Stream Experts"*

September 9, 2019

As part of our normal monthly maintenance, our biologists and technicians visited the water resources at Deer Lakes HOA on the following date(s):

08/27/2019

Your lakes were assessed for aquatic vegetation problems, water quality was monitored, and overall lake condition evaluated. Following are the results of the monitoring and any subsequent treatments or management actions:

### **Trout Pond**

Aug 27 - Previous treatments for algae and knotweed were successful but have since popped up elsewhere in the pond. Both were treated during this visit. We were present during the supplemental feeding and the fish appear to be healthy.

We will return in September to perform our scheduled lake management and maintenance. If you have any questions or concerns, please contact me at (505) 681-2500. Thank you again for your continued confidence in our company.

Sincerely,

Jake Shandler, Fisheries Biologist  
Aquatic Consultants, Inc.
