

Aquatic Consultants Inc.

"Your Lake & Stream Experts"

May 1, 2020

As part of our normal monthly maintenance, our biologists and technicians visited the water resources at Deer Lakes HOA on the following date(s):

04/30/2020

Your lakes were assessed for aquatic vegetation problems, water quality was monitored, and overall lake condition evaluated. Following are the results of the monitoring and any subsequent treatments or management actions:

Trout Pond

April 30 - Chara and bottom algae were treated during this visit. Water knotweed has also began to grow and was treated as well. No fish were observed during this visit. Excess feed was taken back and a credit will be given for the unused feed.

We will return in May to perform our scheduled lake management and maintenance. If you have any questions or concerns, please contact me at (505) 681-2500. Thank you again for your continued confidence in our company.

Sincerely,

Jake Shandler, Fisheries Biologist
