

## **Aquatic Consultants Inc.**

*"Your Lake & Stream Experts"*

June 3, 2019

As part of our normal monthly maintenance, our biologists and technicians visited the water resources at Deer Lakes HOA on the following date(s):

05/31/2019

Your lakes were assessed for aquatic vegetation problems, water quality was monitored, and overall lake condition evaluated. Following are the results of the monitoring and any subsequent treatments or management actions:

### **Trout Pond**

May 31 - Handfull of dead fish around shoreline. Pondweed treated with sonar, they were beginning to get out of hand. Owner wanted some catails cutback except for one corner of the pond.

We will return in June to perform our scheduled lake management and maintenance. If you have any questions or concerns, please contact me at (505) 890-5753. Thank you again for your continued confidence in our company.

Sincerely,

Jake Shandler, Fisheries Biologist  
Aquatic Consultants, Inc.
