Please contact your 4TL representative for specifications of the proposed rotation fishing tools.

*ITCO Releasing Spear*

The ITCO Spear is designed to make nearly a 360 degree contact, it internally engages fish over a large area to minimize the potential for damage or distortion.

It is built to withstand severe jarring and pulling strains.

To improve reliability, the tool is designed without the small parts that typically can be lost or damaged downhole.

*Taper Tap*
