

MINI TONG MAKE/ BREAK UNIT & POWERPACK

Mini Tong

Powerpack

TOOL APPLICATIONS

The **Mini Tong** was designed with rig floor and service shop safety in mind. This compact service tool provides a safe and easy way to make up and break out connections on small tools and pipes. The unit is easily handled and controlled and can be operated from a variety of power sources.

Easily handled, hydraulically controlled and operated via a pneumatic **Powerpack**, it can be used both horizontally or vertically.

Taranaki Thru Tubing Tools Ltd. maintains, calibrates and services these units on a regular basis to ensure a long, trouble-free life while avoiding unsafe operating conditions and premature breakdown of parts.

FEATURES AND BENEFITS

- Operated by one person - Simple to use
- Compact and practical for Coiled Tubing operations
- Adjustable clamp force reduces risk of crushing thin-walled tools
- Tong can be position above or below the back-up to best suit the application
- Can be used in different positions; jointed tubing mode or coiled tubing mode
- Takes less than 2 minutes to convert the unit to different position
- Make up any connection between 1 1/16" to 3 1/2" without changing dies

SPECIFICATIONS

Technical Variable	Units	Size
Pipe Range	in	1 1/16 – 3 1/2
Size (L x W x H)	in	22 1/2 x 20 x 23
Distance between Jaws	in	3
Weight	lbs	210
Max Torque	ft.lbs	5,000
Operating Pressure	psi	2,900
