

Mental health is imperative, as most are beginning to realize and PRIORITIZE. This year, 2022, has been a year of amazing growth and prioritizing ME.

For the past 7 weeks, Monday-Friday, I have been doing Transcranial Magnetic Stimulation (TMS) to treat my severe depression/ anxiety. Folks, this treatment has been a game changer for my mental health. For once in my life, I'm actually excited about my future here on earth (although my infatuation with death will NEVER change....LOL) and the possibilities to grow in consciousness, knowledge, LOVE, and all the beautiful things that come with human life!!! Before Dauntless Psychiatry TMS, there are countless individuals that aided and supported me up until and throughout this year of GROWTH & HEALING and I am forever grateful for each and every doctor, nurse, therapist, hospital staff, etc. Thank you!!!

I want to give a huge shout out to Dauntless Psychiatry/TMS and the fantastic team. If you are in the NWA area and suffer with depression/ anxiety please seek Dauntless Psychiatry and KNOW that TMS works. I'm a walking, finally LIVING, human being experiencing the benefits of TMS.

My brothers and sisters that struggle with mental health, please know that you will NOT remain in the sunken place, THIS TOO SHALL PASS!

Onward with Greatness & Clarity!!!!
