Notes to Consolidated Schedule of Investments:

- (a) Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at March 31, 2021 was \$428,214,265, which represented 43.71% of the Fund's Net Assets.
- (b) Security issued at a fixed rate for a specific period of time, after which it will convert to a variable rate.
- (c) Perpetual bond with no specified maturity date.
- (d) Zero coupon bond issued at a discount.
- (e) Security valued using significant unobservable inputs (Level 3). See Note 1.
- (f) Defaulted security. Currently, the issuer is in default with respect to principal and/or interest payments. The aggregate value of these securities at March 31, 2021 was \$602,378, which represented less than 1% of the Fund's Net Assets.
- (9) Interest or dividend rate is redetermined periodically. Rate shown is the rate in effect on March 31, 2021.
- (h) Foreign denominated security. Principal amount is denominated in the currency indicated.
- (i) Step coupon bond. The interest rate represents the coupon rate at which the bond will accrue at a specified future date.
- (i) Interest only security. Principal amount shown is the notional principal and does not reflect the maturity value of the security. Interest rate is redetermined periodically based on the cash flows generated by the pool of assets backing the security, less any applicable fees. The rate shown is the rate in effect on March 31, 2021.
- (k) Interest rate is redetermined periodically based on the cash flows generated by the pool of assets backing the security, less any applicable fees. The rate shown is the rate in effect on March 31, 2021.
- (1) Interest only security. Principal amount shown is the notional principal and does not reflect the maturity value of the security.
- (m) Security purchased on a forward commitment basis. This security is subject to dollar roll transactions.
- (n) Affiliated issuer. The issuer is affiliated by having an investment adviser that is under common control of Invesco Ltd. and/or the Investment Company Act of 1940, as amended (the "1940 Act"), defines "affiliated person" to include an issuer of which a fund holds 5% or more of the outstanding voting securities. The Fund has not owned enough of the outstanding voting securities of the issuer to have control (as defined in the 1940 Act) of that issuer. The table below shows the Fund's transactions in, and earnings from, its investments in affiliates for the three months ended March 31, 2021.

	Value December 31, 2020	Purchases at Cost	Proceeds from Sales	Unrealized Appreciation (Depreciation)	Realized Gain (Loss)	Value March 31, 2021	Dividend Income

- (o) Variable rate senior loan interests often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with any accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the variable rate senior loan interests will have an expected average life of three to five years.
- (p) Variable rate senior loan interests are, at present, not readily marketable, not registered under the 1933 Act and may be subject to contractual and legal restrictions on sale. Variable rate senior loan interests in the Fund's portfolio generally have variable rates which adjust to a base, such as the London Interbank Offered Rate ("LIBOR"), on set dates, typically every 30 days, but not greater than one year, and/or have interest rates that float at margin above a widely recognized base lending rate such as the Prime Rate of a designated U.S. bank.
- (q) Non-income producing security.
- (r) The rate shown is the 7-day SEC standardized yield as of March 31, 2021.
- (s) The table below details options purchased.

Centrally cleared swap agreements collateralized by \$29,387,038 cash held with Counterparties.

Implied credit spreads represent the current level, as of March 31, 2021, at which protection could be bought or sold given the terms of the existing credit default swap agreement and serve as an indicator of the current status of the payment/performance risk of the credit default swap agreement. An implied credit spread that has widened or increased since entry into the initial agreement may indicate a deteriorating credit profile and increased risk of default for the reference entity. A declining or narrowing spread may indicate an improving credit profile or decreased risk of default for the reference entity. Alternatively, credit spreads may increase or decrease reflecting the general tolerance for risk in the credit markets generally.

Notes to Quarterly Consolidated Schedule of Portfolio Holdings

March 31, 2021 (Unaudited)

NOTE 1-Additional Valuation Information

Generally Accepted Accounting Principles ("GAAP") defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods, giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3), generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

Level 1 - Prices are determined using quoted prices in an active market for identical assets.

Level 2 - Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.

Level 3 - Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information

The following is a summary of the tiered valuation input levels, as of March 31, 2021. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the consolidated financial statements may materially differ from the value received upon actual sale of those investments.

During the period ended March 31, 2021, there were transfers from Level 2 to Level 3 of \$8,767, due to lack of availability of market data.

^{*} Forward foreign currency contracts, futures contracts and swap agreements are valued at unrealized appreciation (depreciation). Investments matured and options written are shown at value.

A reconciliation of Level 3 investments is presented when the Fund had a significant amount of Level 3 investments at the beginning and/or end of the reporting period in relation to net assets.

The following is a reconciliation of the fair valuations using significant unobservable inputs (Level 3) during the period ended March 31, 2021:

	Value 12/31/2020	Purchases at Cost	Proceeds from Sales	Accrued Discounts/ Premiums	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Transfers into Level 3	Transfers out of Level 3	Value 03/31/2021
Variable Rate Senior Loan Interests	\$11,193,807	\$699,481	\$(27,417)	\$28,489	\$(68)	\$128,893	\$ -	\$-	\$12,023,185
Non-U.S. Dollar Denominated Bonds & Notes	42,878	-	-	(12)	-	(466)	-	-	42,400
Common Stocks & Other Equity Interests	19,988	-	(1,713)	-	-	179	8,767	-	27,221
Investments Matured	-	50,238	-	404	-	(404)	-	-	50,238
Total	\$11,256,673	\$749,719	\$(29,130)	\$28,881	\$(68)	\$128,202	\$8,767	\$-	\$12,143,044

Securities determined to be Level 3 at the end of the reporting period were valued primarily by utilizing quotes from a third-party vendor pricing service. A significant change in third-party pricing information could result in a significantly lower or higher value in Level 3 investments.

NOTE 2-Coronavirus (COVID-19) Pandemic

During the first quarter of 2020, the World Health Organization declared COVID-19 to be a public health emergency. COVID-19 has led to increased short-term market volatility and may have adverse long-term effects on U.S. and world economies and markets in general. COVID-19 may adversely impact the Fund's ability to achieve its investment objective, as stated in the most recent shareholder report. Because of the uncertainties on valuation, the global economy and business operations, values reflected in the Schedule of Investments may materially differ from the value received upon actual sales of those investments.

The extent of the impact on the performance of the Fund and its investments will depend on future developments, including the duration and spread of the COVID-19 outbreak, related restrictions and advisories, and the effects on the financial markets and economy overall, all of which are highly uncertain and cannot be predicted.

NOTE 3-Subsequent Event

Effective April 30, 2021, the name of the Fund and all references thereto changed from Invesco Oppenheimer V.I. Global Strategic Income Fund to Invesco V.I. Global Strategic Income Fund.
