The Hyosung **HALO II** Shell provides a new platform for the most reliable and popular cash dispensers ever produced for the retail ATM market. CDUs from NH1500 and later model Hyosung retail ATMs can be installed in this versatile retail model. ATM owners gain an up-to-date ATM platform with the latest ATM technology, including an EMV card reader, PCI 3.0 compliant keypad and Windows® CE 6.0 processor while protecting their investment in Hyosung CDUs.

KEY FEATURES

UNIQUE DESIGN

The **HALO II** Shell offers unsurpassed convenience with an intuitive user interface on a 10.1–inch color LCD screen with touch function key interface. The new ATM provides a highly attractive platform for an existing ATM location or in new locations with higher earning potential.

MAXIMUM RELIABILITY

The **HALO II** Shell incorporates proven cash dispensing technology widely regarded as the best and longest–lasting in the industry. Modular components allow ease of minimal support and intervention.

SECURITY

The Halo II Shell provides a secure UL291 certified business hours safe, e–lock and EMV reader, the same as in the proven HALO II ATM platform. Advanced security features include open door sensors and Transport Layer Security (TLS) encryption protocol, which further protects your system from unauthorized access.

COST-SAVING PERFORMANCE

The **HALO II** Shell application provides the same highly intuitive operator menu program featured on all current Hyosung retail ATMs. The new **HALO II** Shell supports advanced features of MoniView RMS, including remote automatic update of application software and EMV journal upload over affordable Internet or wireless modem connections.
