

Coloring Project

Gift Card Holders

Get a head start on holiday preparations. Color and fold the provided designs and add a gift card and/or holiday greeting inside.

You will need:

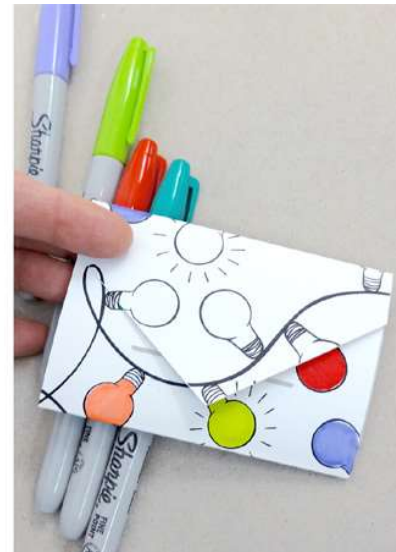

- [Designs](#) printed on card stock
- Markers or colored pencils
- Scissors
- Scotch tape or Glue Dots

Display a photo of some completed [Gift Card Holders](#) to advertise this practical project.

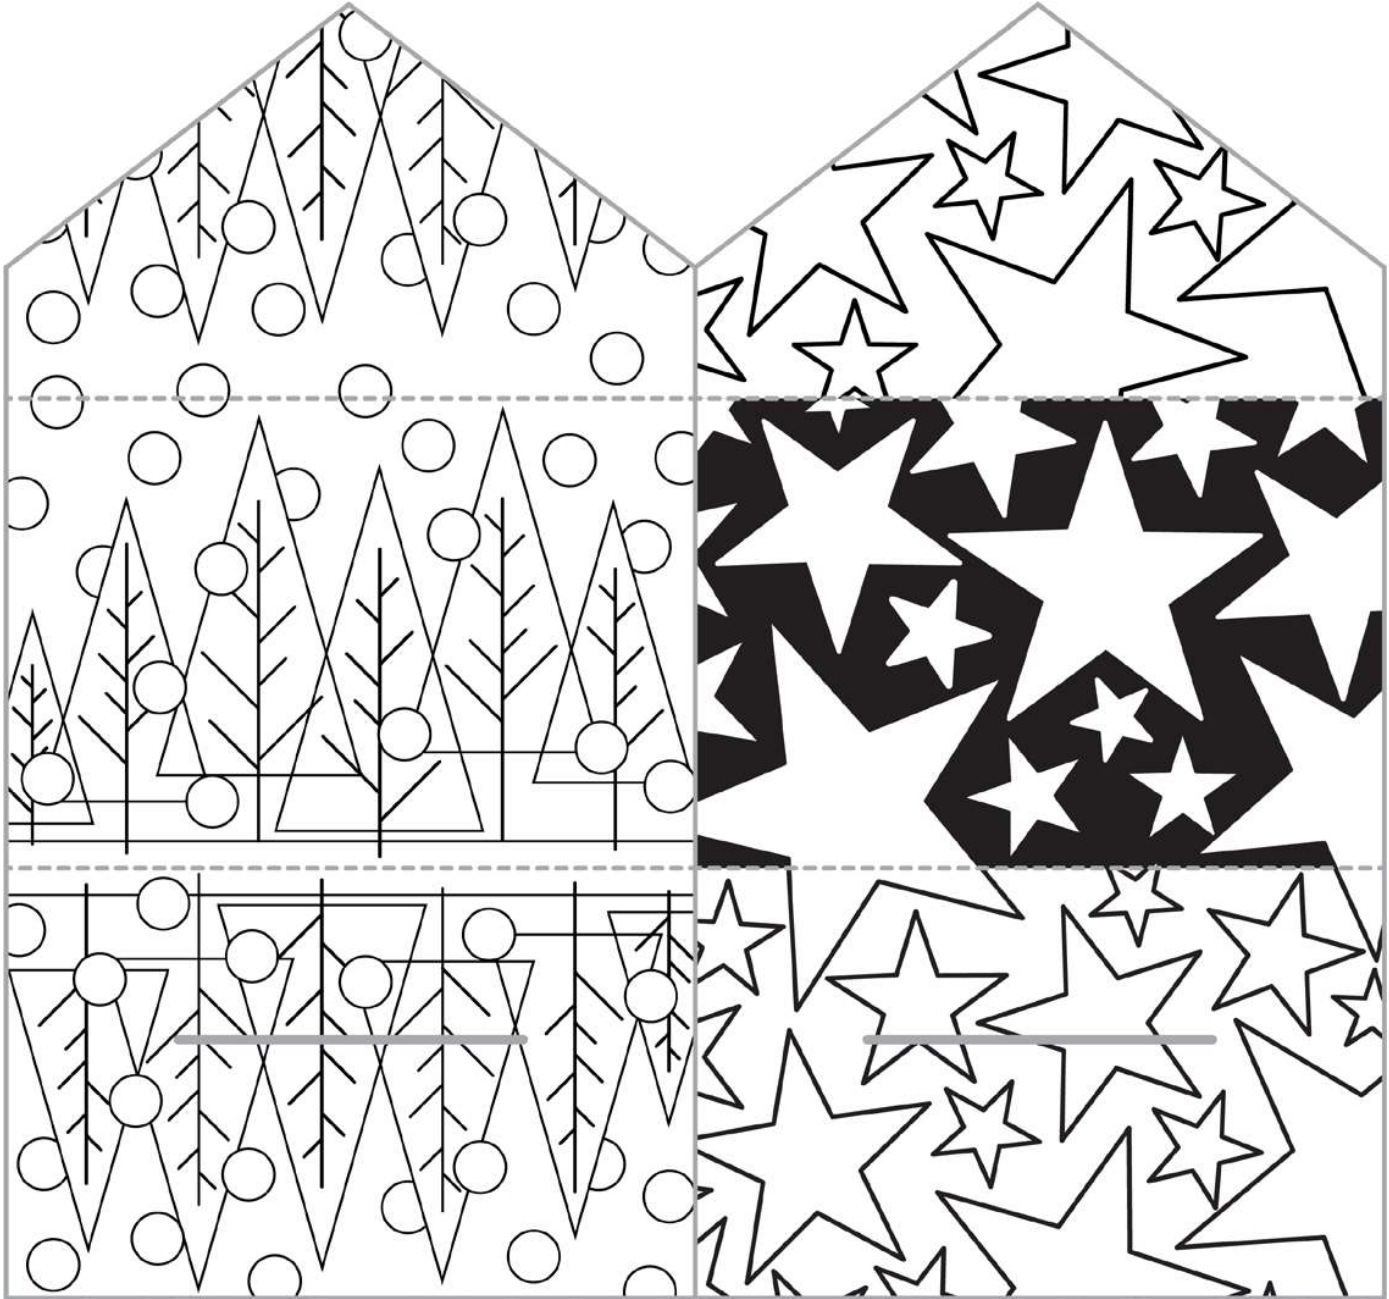

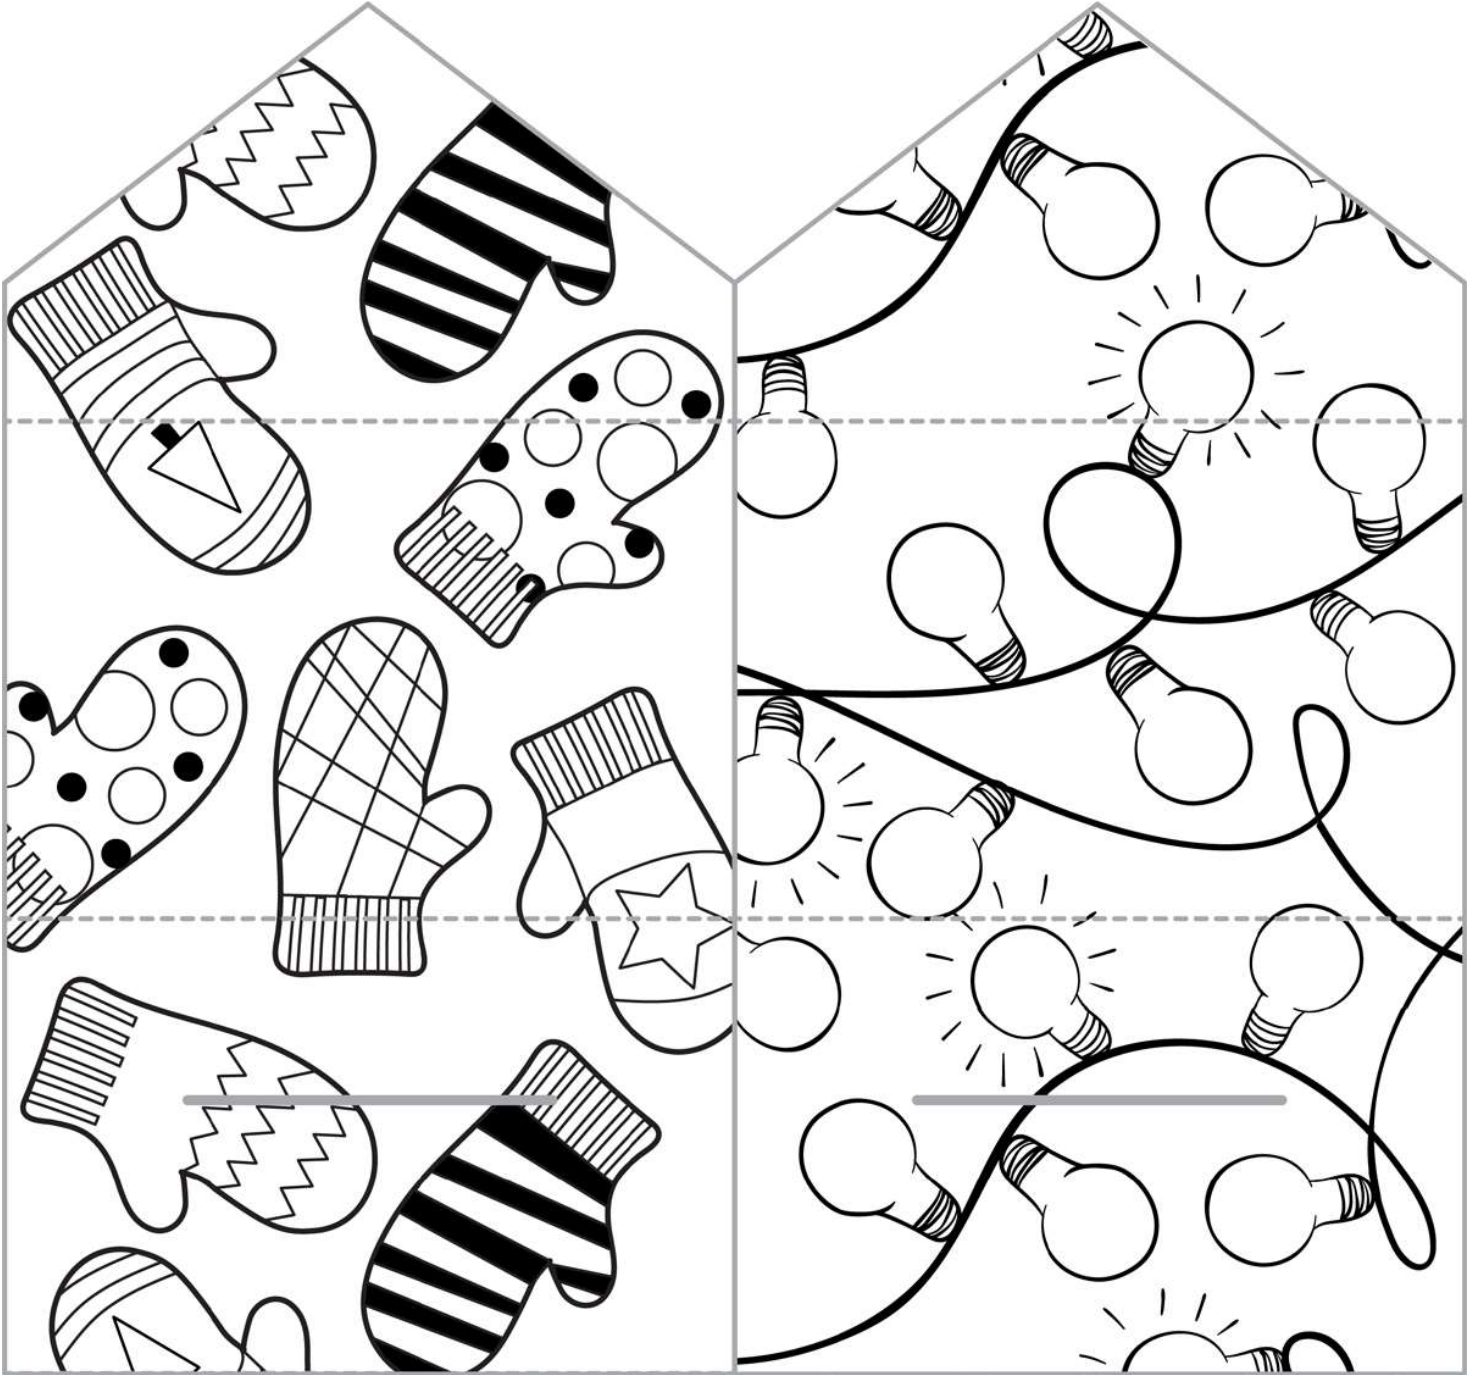

Directions:

1. Cut out the designs following the gray outlines. Bend the design in half to cut a slit along the thick gray line on the bottom panel.

2. Color all the panels except the section with the pointed flap. Fold along the dashed lines and align the design on the pointed flap with the colored bottom panel. Match the colors and finish coloring in the design, or leave it as is for a modern, two-toned look.
3. Place a gift card inside and secure it in place with a couple of Glue Dots or rolled Scotch tape. Fold the holder closed and slip the pointed end through the slit.
