Happy Birthday!

Jack Miner (1865–1944) was born in Ohio but moved to Kingsville, Ontario, at age 13. Through his writings and lecture tours, Miner became internationally recognized

as one of the fathers of wildlife conservation. Miner was a pioneer in the practice of bird banding, and he founded his bird sanctuary so that migratory Canada geese would have a place to return. In 1947, the House of Commons established the National Wildlife Week Act in honor of the famous “bird man.” The Kingsville Migration Festival annually celebrates his legacy.
