

BAYLEY & BENDER

Personal and Organizational Development

Teri Saunier fulfilled a life-long dream when she opened Material Graphics in the autumn of 2003. She has a passion for print and design and has currently over twenty-five years of experience. Leading up to owning her own business was a long history of successes. Teri graduated magna cum laude from the University of Maryland, Baltimore County. In 2002 and 2003 she earned design scholarships from the Advertising Association of Baltimore. Teri believes in building lasting relationships with her clients, which in turn makes her work more meaningful. When not staring at her computer screen, she can be found off on adventures with her husband and kids either homeschooling, hiking, kayaking, or simply indulging in an art exhibit.
