

Financing Your Next Franchise

Whether you are looking to set up your first franchise business or you are trying to put together the funding you need to open a new one after gaining experience in the industry, our associates are ready to help. They understand that franchise companies have a unique business model that requires working capital and rewards it with benefits like an already-cultivated customer base and a winning marketing strategy.

To take full advantage of your opportunities, though, you need to be able to put cash wherever it is needed, including advertising, payroll, equipment, and even the franchise buy-in. That's why our program is set up the way it is—so you have the flexibility you need in the beginning and the kind of long-term repayment options that make it a sound investment in your future.

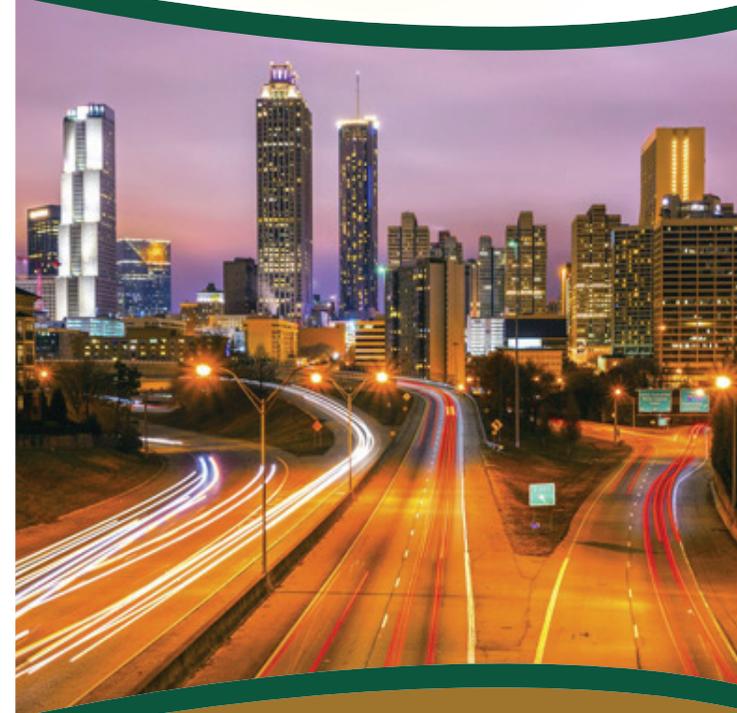

DCG DORISCAR CAPITAL GROUP

Program Features

- Up to 90% LTV
- Extra cash for working capital
- Rates as low as 6%
- Fast closings and commitments

Considering an SBA Loan for Your Business?

If you are looking to put together long-term financing that can help your company with a major investment like new equipment, facilities, or even your initial acquisition of the business, then small business loan opportunities from the SBA are likely on your radar as an option. These loans feature some very advantageous parameters, and by working with preferred providers like Doriscar Capital Group you can streamline the application process, giving you a determination more quickly.

Commercial Real Estate Purchases

The Small Business Administration requires all companies that apply for loans to cover real estate purchases to use a majority of the floor space for their own operations. As long as those and other requirements are met, though, the program will fund a wide variety of property types, including

- Gas stations
- Storefronts
- Warehouse and industrial space
- Auto shops

- Dealerships
- Office buildings
- Restaurants

Acquisition Loans for Entrepreneurs

When you are looking to buy an existing business with an annual income below \$1.25 million, the SBA offers loans to cover the purchase. These loans have terms up to 15 years and 80% LTV to help you gain possession of healthy existing businesses, allowing you to make an investment in a company that is already benefitting your community.

To find out more about small business loans through Doriscar Capital Group, talk to one of our associates today. They are ready to answer questions or to help you start an application.

Financing for the Equipment Your Business Needs

When your company needs to get work done, you count on your equipment to carry you through the task. Without it, business would grind to a halt quickly, whether you're talking about tools, vehicles, or just the IT infrastructure your office needs. That equipment is an investment in your business, which is why you need to have the right tools to make use of it at every phase of its lifespan, including the tools that allow you to pull working capital back out of the equity you have accrued.

Financing Tiers

Our basic equipment financing packages include a variety of options and have numerous payment structures so that you can find the one that works for your company. We offer financing and equipment leasing packages in three tiers, based on their values.

Up to \$150,000 available with just an application
\$150,000 to \$500,000 with disclosures
Over \$500,000 is available to qualified borrowers with corroborating disclosures
All of our packages also come with terms of up to 84 months.

Startup Program

Small businesses often have trouble finding the right financing packages for their needs, which is why we have a specialized program just for them. When your company is being turned away for having a business history that is too short, come talk to us.

B, C, and D Credits

In competitive markets, even established businesses sometimes need to restructure to remain competitive. Our credits program is designed to help you during those times of transition, so that you have everything you need to reposition and reboot your business.
