

## GARAGE/GARAGE DOORS

- a) Accent colors and simple door patterns complimentary to the architectural character of the home are encouraged. Considerations include, but are not limited to, neighborhood consistency, material, and window design
- b) All windows must match on each garage door
- c) Outlining door panels in a contrasting color or in a checkerboard design is not permitted
- d) Architectural forms and materials similar to those used in the main entry of the home should be incorporated into the garage elevation
- e) Garage conversions for residential or commercial use are not permitted
